OVER 1,100,000 MEN HAVE BEEN SENT BY UNITED STATES

OTTAWA AGREES DRAFTEES NOT TO BE MOVED FROM CALGARY WITHOUT NOTICE OF ONE DAY TO THE SHERIFF

Agreement in Habeas Corpus Cases Made by District Officer Commanding Is Confirmed; Thirty-Four Applications at Quebec and Toronto in Week

Ottawa, July 13.—The Acting Minister of Militia and Defence announced this forenoon that the Adjutant-General had received a telegram from the district officer commanding Military District No. 13 which, after referring to the judgment of the Alberta Court of Appeals at Calgary, continued: "Finally court agreed that all proceedings would stand stayed upon my giving undertaking not to remove from Calgary judicial district any draftee who already has appealed for habeas corpus and is still in Alberta without giving sheriff twenty-four hours' notice of such removal. I concluded matter by giving undertaking."

In answer to this the Adjutant-General has notified the district officer commanding: "Will abide by your undertaking to give twenty-four hours' notice of intention to remove the men referred to and you will be given an opportunity to carry it out."

Quebec, July 13.—To-day witnessed a veritable avalanche of applications here for writs of habeas corpus on behalf of men recently drafted into service under the Military Service Act. The total for the week is twenty-three, and in addition to these there are a few outstanding from last week.

In each of the courts, as a matter of course, ordered the writs to be issued and called upon the various commanding officers in whose charge the various applicants were, to bring the young men to court, so that their cases might be investigated.

Claims Made.

The allegations in support of the various writs differ but slightly. In the main it is claimed that the applicants are men who have been examined in the ordinary operation of the law which established exemption tribunals. It is argued that having been regularly and legally exempted under the law, they are not amenable to be drafted against their will for military purposes.

At Toronto.

Toronto, July 13.—Acting for eleven men who have been drafted and who are held in the army under compulsion, one of whom already has been dispatched overseas, Gordon Waldron is applying to the courts here on their behalf for writs of habeas corpus. In some cases Mr. Waldron is acting as the instance of the United Farmers of Ontario.

Ten of the eleven men whose release is sought are at Niagara camp. They are Edgar Williams, Charles C. Patterson, Hugh James Sheardown, James A. Harper, Norman Williams, J. Alexander, Edward R. Barron, Fred R. Strong, Robert Allen and Ernest A. Foster. The hearing of the cases was adjourned until Thursday next.

Enforcing Law.

Ottawa, July 13.—Acting under instructions from headquarters, the military police are making strong efforts to enforce compliance with the Military Service Act, and the regulations governing the issuance of registration certificates by the Dominion Registration Board. James Watters, aged twenty-eight years, of Briceville, Ont., was arrested in Ottawa for carrying a certificate which apparently had been issued to one Russell C. Watters. He was arraigned before Magistrate Askwith and charged, with carrying a registration card not his, and was committed for trial before a judge and jury.

No Reply From U. S. to Hertling's Latest Delivery on Peace

Washington, July 13.—No official recognition is being given here to the latest peace speech of German Chancellor von Hertling before the main committee of the Reichstag. The Chancellor's statement that his willingness to discuss peace was shared by the chief of the army administration was regarded as the first peace expression attributed to the military leaders. More definite peace proposals from the German Government would not be expected, it was said.

President Wilson is known to believe that Germany is bent on gaining control of Russia, and would willingly give up everything on the Western front to accomplish that purpose.

G. N. W. Telegraphers Told to Be Ready to Strike at Any Hour

Toronto, July 13.—Deputy International President C. E. Hill, of the Commercial Telegraphers' Union, declared to-day that the fight with the Great Northwestern Telegraph Company will be fought to a finish. The men have been told to be ready at any moment to be called out. A mass meeting of telegraphers is to be held to-morrow to discuss the situation.

FERMENT GROWING IN AUSTRIA AS PEOPLE TALK OF REVOLUTION

London, July 13.—The Morning Post prints a dispatch from Zurich saying that a Russian who has just reached Switzerland from Kiev by way of Vienna reports ferment in Austria as rapidly developing. Not only is revolution talked about and advocated on all sides, says the message, but small placards on which are printed "Höhe die Revolution" are being stuck on walls, and even inside railway carriages.

THE PREMIER, MAYOR TODD AND DR. TOLMIE WILL GO TO OTTAWA ABOUT C. N. R.

The Hon. John Oliver, Premier of British Columbia, will leave the city on to-night's boat en route for Ottawa. On Friday next he will meet the acting Prime Minister of Canada, the Hon. C. J. Doherty, and the other members of the Federal Executive at a special sitting of the Cabinet. He will present to the Dominion Government the facts concerning the railway situation on Vancouver Island and urge in person what he has been doing for several weeks past by means of an interchange of telegrams between himself and the Hon. Dr. Reid, Federal Minister of Railways and Canals. This is the essence of a decision reached at a meeting of the Provincial Executive this morning.

To give the presentations of the Premier an added touch of local import His Worship Mayor Todd will represent the citizens of Victoria and Dr. Simon F. Tolmie will carry the wishes of the electorate of his constituency in general. The Premier, the Mayor, and the Federal member for Victoria will go direct to the National Capital and return when they have convinced the Federal authorities that there must be no more humbug in regard to the seventy miles of Vancouver Island Railway.

Nothing From Dr. Reid. When the possibility of getting satisfaction from the Hon. J. D. Reid in collaboration with the Canadian Northern officials became obvious on Thursday last, Premier Oliver commenced wiring to Ottawa with the intent to see how early it would be possible for him to meet the Federal Executive. A wire from Acting Premier Doherty this morning fixed Friday next as the earliest convenient day. There has been no further communication from the Federal Minister of Railways in reply to the Premier's telegram of Thursday evening and yesterday morning. The Premier's messages in question absolutely refuting the existence of any agreement as between the Provincial Government and the Canadian Northern Pacific Railway Company.

Keeping step with reports of Henderson's health have been dispatches from Germany indicating that Henderson and the Kaiser had had disagreements concerning the German offensive movement in the west.

Typoid Report. Late in May Hindenburg was reported ill with typhoid fever at Strasbourg. On June 15 he was reported by The Tribune, of Geneva, to be suffering from an acute nervous disease. The newspaper declared it had learned from a reliable source that his mental capacity was much affected and that he was confined in a private sanatorium. It added that Hindenburg had been responsible part in the offensive on the Western front.

At the outbreak of the war von Hindenburg was a general in retirement. He was credited with evolving and carrying out the campaign against the Russians in East Prussia which resulted in the serious Russian defeat at Tannenberg, for which he was promoted to field-marshal. He continued to command the German forces on the Russian front until August 30, 1916, when he was appointed Chief of the General Staff in succession to Gen. von Falkenhayn. When he became Chief of the General Staff, Gen. Ludendorff, who had acted as his Chief of Staff on the Russian front, came with him as his right-hand man with the title of chief quartermaster-general.

Over Seventy. Field-Marshal Paul Beneckendorff and von Hindenburg was seventy years old last September 23. The newspaper Les Nouvelles, which reports the death of the German leader, said a newspaper in the French language published at The Hague.

ANOTHER AMERICAN AIRMAN IS KILLED

Chatham, Mass., July 13.—Ensign Andrews, a naval aviator, was killed, and Ensign Parks probably fatally injured in the fall of a seaplane on the beach here to-day. The machine crashed to earth and instantly caught fire.

GERMAN PLOT INQUIRY AT NEW YORK MONDAY

New York, July 13.—Inquiry into the German plot exposed before the United States entered the war to send spies from this country to the United Kingdom to locate bases of ships of the British fleet so that they could be attacked by submarines will be reopened on Monday by the federal grand jury here, it became known to-day.

WITH 1,100,000 AMERICAN TROOPS IN FRANCE OR ON WAY, THREE ARMY CORPS HAVE BEEN FORMED

BELGIUM A PAWN, SAYS VON HERTLING

Germany Would Not Keep Country; but No Binding Declaration Yet

Copenhagen, July 13.—Denial that Germany intended to retain Belgium was made by Count von Hertling, the German Imperial Chancellor, in the course of his speech before the main committee of the Reichstag Thursday. "The present possession of Belgium only means that we have a pawn for future negotiations," the Chancellor said. "We have no intention to keep Belgium in any form whatever."

"What we precisely want, as expressed by us on February 24," the Chancellor continued, "is that after the war, restored Belgium shall, as a self-dependent state, not be subject to anybody as a vassal, and shall live with us in good, friendly relations."

"I have held this point of view from the beginning in regard to Belgium, and I still hold it to-day. This side of my policy is fully in conformity with the general lines, the direction of which I clearly laid before you yesterday."

War of Defence. "We are waging the war as a war of defence, as we have done from the very beginning, and every imperialist tendency and every tendency toward world domination has been remote from our minds. What we want is the inviolability of our territory, open air for the expansion of our people in the economic domain, and, next, (concluded on page 4.)

SIBERIANS WILL SUPPORT ENTENTE

New Government Headed by Horvath in Complete Union With Allies

London, July 13.—The Allied Powers will have the full support of the new Siberian Government, according to assurances sent by Lieut.-General Horvath, who has been proclaimed President of the Siberian Daily Mail at Harbin. From his headquarters at Pograditz, in Eastern Manchuria, General Horvath has telegraphed the correspondent of The Mail as follows:

"Paragraph Five of the programme of my Government, which establishes the renewal of all treaties with the Allied Powers, is a confirmation at once of the firm intention on our part to act in complete accord with our brave allies and to return to the Russian ranks those who are fighting with the enemy."

Announcement that General Horvath, at Grodekovo, northeast of Vladivostok, had proclaimed himself Premier of a temporary Siberian Government was contained in a dispatch from the correspondent of The Mail at Harbin, dated July 10, two days earlier than the message that the general had been proclaimed temporary President.

General Horvath, who has been vice-president and general manager of the Chinese Eastern Railway, is anti-German as well as anti-Bolshevik. At Grodekovo he announced he would repeal all the Bolshevik decrees, restore in full all Allied treaties, both political and commercial, re-establish a disciplined and non-political army and restore property. He also favored Siberian autonomy and religious freedom.

AUSTRIAN EMISSARY MADE VAIN TRIP TO SEE ALLIED MINISTERS IN SWISS CITY

Washington, July 13.—Reports of the repulse by Allied legations in Berne of an alleged Austrian peace emissary have been confirmed by The Journal, of Geneva, says an official dispatch to-day from Switzerland. According to the reports, an Austrian from the pacifist party of Professor Lammasch arrived several days ago in Berne. This emissary presented himself at several legations of the Allied Powers, but in no case was he received.

Professor Lammasch is the individual who on several former occasions is said to have made peace overtures to Americans, as well as representatives of other Allied countries.

Chief of Staff Announces at Washington That Between 675,000 and 750,000 Men From States Are on the Firing Line in France or Close to It

Washington, July 13.—The American troops overseas or on ship-board en route have passed the 1,100,000 mark, General March, Chief of Staff, told Senate Military Committee members to-day at their weekly conference. This represents an increase of more than 90,000 since last week.

Three army corps of from 225,000 to 250,000 men each have been definitely organized from the American divisions in France, General March announced to-day at his weekly conference with newspapermen. Five regular, nine National Guard and four national army divisions have been used to make up the three corps.

Major-General Hunter Liggett, commanding the Forty-first (the Sunset) Division, National Guards, has been detailed as temporary commander of the First Army Corps. Commanders for the Second and Third Army Corps have not yet been designated.

General March had little to say regarding the military situation in France, but stated that the shipment of troops from the United States was proceeding without any let-up whatever, the same rate being maintained for July as for previous months.

FRENCH TAKE MORE GROUND SOUTHEAST OF AMIENS AND BRITISH HARASS GERMANS

Paris, July 13.—In an operation carried out last night on the front between Montdidier and the Oise, on the southern side of the Amiens salient, French troops pushed their advanced posts forward a distance of approximately 500 yards in the vicinity of the Porte farm, the War Office announced this afternoon. The Porte farm is in the vicinity of Antheuil, northwest of Compeigne. This farm, together with the Loge farm nearby, was captured by the French in a local operation on the evening of July 8.

The text of the statement follows: "Between Montdidier and the Oise French troops in the course of the night advanced their forward positions 500 metres in the region of the Porte farm."

"Several raids were carried out by French troops north of the Aisne (southeast of Amiens), in the region of the Oise, on the Marne and in the Champagne, resulting in the taking of prisoners."

British Report. London, July 13.—Successful minor enterprises were carried out by British troops last night on the Flanders front near Vieux Berquin and Merris, as a result of which ninety-six prisoners were taken and a few machine guns captured, the War Office announced to-day.

A German raiding party which advanced on the British lines in Flanders, in the Moteven sector, was repulsed. The German artillery developed activity during the night on the Flanders front and opposite Beaumont-Hamel.

Ninety-six Prisoners. The text of the statement follows: "Yesterday English and Australian troops again carried out successful enterprises in the neighborhood of Vieux Berquin and Merris, capturing ninety-six prisoners and a few machine guns. Our casualties in the operation of the last two nights in this sector have been exceptionally light."

"During the night a party of English troops raided German trenches north of Hamel and brought back twenty-two prisoners."

"A raid attempted by enemy troops north of Moteven was repulsed. The hostile artillery has been active opposite Beaumont-Hamel and in the Strazeele and Lore sectors."

British Casualties. London, July 13.—The British casualties reported in the week ending to-day totalled 14,911 officers and men, as compared with the aggregate of 17,336 in the previous week.

The casualties during the past week were divided as follows: Killed, or died of wounds, officers, 125; men, 1,934. Wounded or missing, officers, 408; men, 1,444.

American Report. Washington, July 13.—A report from General Pershing issued to-day by the War Department describes operations in the various sectors occupied by American troops through July 7 to 10. It says: "Headquarters American Expeditionary Force, July 12. "Section A—In the Chateau Thierry region a trench raid attempted by enemy troops broke down with losses to our fire."

MANY FACTS FROM CAPTURED GERMANS

Allies' Success in Getting Information is Worrying Gen. Ludendorff

With the American Army in France, July 13.—(By Herbert Wood, special correspondent of The Toronto Globe.)—"I understand that within the last few weeks Gen. Ludendorff, First Quartermaster-General of the German army, has issued a number of orders complaining of the amount of intelligence the Allies gather from Germans captured by them and the paucity of the facts which he, in turn, receives from Allied soldiers captured by the Germans. In the orders he appeals to the patriotism of the German soldiers who fall into Allied hands to refuse to talk, remarking that hundreds of lives are imperiled by their volubility."

"It is certain that so docile do the Germans become under German discipline that they answer questions put to them by the Allied examining officers with as much promptitude as they do those put by their own officers. It is amazing how much information the Germans write in their letters home on carry about in notebooks and diaries. The Prussian system of frightening men by warnings that the Allies murder all their prisoners invariably makes the prisoners more accessible than they otherwise would be. I have seen many who might have said little, trying to propitiate the examining officers by pouring out information. Thus does the Prussian method fail."

ARMY ACT DISPUTE ENDED IN DEATH

Unintentional Discharge of Gun Killed Young Man Resisting in Quebec

Montreal, July 13.—Resistance to the work of the federal police in taking draftees from the township of Vandreuil on Thursday led to the death of a young man named Aurelien Gaboriau, and injury to James Farrell, chauffeur of the car used by the police, who is now in the Royal Victoria Hospital here in a grave condition.

According to the story of witnesses at the inquest held at Vandreuil yesterday afternoon, Gaboriau, with about nine other young men of the district of St. Lazare, had organized resistance to the federal police and in the execution of their plans had determined that a young man, Joseph Chevrier, whom the police had come to take away, should not be drafted. The police arrived in the afternoon at St. Lazare in an automobile and the young man, with Gaboriau, at once got into an altercation with them in the course of which the chauffeur of the car, Farrell, was struck, over the head, it is alleged, with the butt end of a shotgun. The gun exploded, and its charge entered the leg of Gaboriau. He died several hours later, while Farrell was taken to the Royal Victoria Hospital, where his condition is reported as serious.

A TURKISH REGIMENT MUTINIED WHEN TOLD OFF FOR MESOPOTAMIA

Athens, July 12.—Via London, July 13.—According to an uncensored letter dated June 13 which was smuggled out of Smyrna, a Turkish regiment which had been ordered to Mesopotamia mutinied and murdered its German officers. Many soldiers sent to suppress the mutiny joined the rebellious troops, the letter declares.

Talat Pasha, the Turkish Premier, went to Smyrna and granted amnesty to the mutineers, who were given the promise that they would not be sent to the Mesopotamian war area.

REINFORCEMENTS AND PROBLEM OF HARVEST

Army in France First Consideration, Says Acting Minister of Militia

Ottawa, July 13.—The following statement has been handed to the press by Hon. Martin Burrell, Acting Minister of Militia and Defence:

"It has been stated to the Government that the labor situation is such that there is danger of the crops not being entirely harvested unless soldiers are granted leave of absence for this purpose. Already a large number of men have been granted exemption and leave of absence. The grave situation at the front since the institution of the German offensive last spring, necessitated the most vigorous and rapid reinforcement of our troops, accordingly arrangements were made for the sending overseas of the largest possible number of troops, especially during June and July.

"There can be no doubt of the necessity for such arrangements being carried out. The whole situation has been laid before Major-Gen. Mewburn and the Prime Minister, who are in England, and they were asked whether conditions at the front would warrant a departure from the programme laid down. A reply was received last night, saying that the situation made it essential that the reinforcements should be sent at the earliest possible moment, and that there should be no departure from the programme.

"The Government appreciates the many and serious difficulties which in these days of war face the Canadian people in the carrying on of their work, notably in agriculture, so important to the conduct of the war itself. Nevertheless, we cannot shut our eyes to the tremendous gravity of the issues now at stake in France. Nor can we forget the sacrifices which are being daily and hourly made by our own countrymen on the field of battle in order that our country, in common with those of our Allies, may be saved from the evil fate which would befall it should Germany triumph.

Without Delay.

"With a full realization of all that is involved, the Government recognizes it as its duty to see that the reinforcements now arranged for be sent across the sea without fail and without delay. The nation has clearly expressed its feeling on this great matter, and we believe the Canadian people, who have committed themselves to so sacred a cause, are determined to suffer such inconveniences and make such sacrifices as are now necessary for the end they have in view.

"It may be pointed out that the United States authorities have informed their Department of Agriculture that the military programme of their country will not permit of delay by postponing the July draft call in order that the men might work in harvesting.

"Realizing, however, the great necessity of harvesting the crop, and with an earnest desire to meet the situation in every way that is compatible with the carrying out of the programme that has been laid down in regard to the forwarding of reinforcements overseas, the Department of Militia will continue its efforts to arrange for the release of all men who can possibly be spared."

J. F. MACKAY LEAVES TORONTO GLOBE; JOINS RUSSELL MOTOR CO.

Toronto, July 13.—J. F. Mackay, for the last fifteen years business manager and treasurer of The Globe, of Toronto, has resigned his connection with that paper, and shortly will assume the position of treasurer of the Russell Motor Car Company.

Mr. Mackay, a son of the late Rev. W. A. Mackay, D. D., of Woodstock, was born in Toronto. He was president of the Canadian Press Association in 1911 at the time when it was reorganized and changed from what was in effect an Ontario organization into one embracing the entire Dominion from coast to coast. For four years immediately after the organization of the Canadian Press Ltd., the chief news distributor in Canada, Mr. Mackay was its president. Upon the organization of the Conservation Commission in 1909, he became one of its eighteen appointed members.

NEW SCALE OF RATES ADOPTED BY FORESTERS

Toronto, July 13.—An outstanding feature of the High Court of the Canadian Order of Foresters' meeting this year, was the question of rates. A committee was appointed last year to devise a proper scale of rates and the new scale was submitted to the year for old and new members. So far as adopting the proposed rate on the old members was concerned the delegates, acting largely under instructions from their subordinate courts, would have none of it, the contention being that the proposed rates were altogether too high. The consensus of opinion was that in paying forty-seven per cent. of the death claims with the interest on investments, as the order is now doing, no change whatever was necessary. A resolution was carried by a large majority, after a heated discussion, providing that new members joining the order after August 1 be charged the Hunter rates, and all old members not satisfied with the old rate, would have the privilege of transferring to the new rate. The age of admission was raised from thirty-five to forty-five or sixteen to forty-five inclusive.

RANGER KILLED BY DRAFT EVADERS AT A POINT IN TEXAS

Beaumont, Texas, July 13.—Alleged draft evaders shot and killed Ranger J. Dudley White and severely wounded Ranger W. I. Rowe near Broadbua, in the piney woods of San Augustine County, yesterday, according to word received here last night.

When you have your printing done in Victoria the money stays here. Ask for this label

MAJOR BISHOP GETS AERO CLUB AWARD

Thirty-Three Allied Air Fighters Decorated by American Organization

Paris, July 13.—The Aero Club of America, through its foreign service committee here, has awarded the medal of the organization to thirty-three aviators representing the United States, France, Great Britain, Italy and Belgium. The medal is of gold, elaborately engraved, and measures almost three inches in width. The aviators receiving the honor are:

United States—Major Raoul Lufbery, killed; Lt. Norman Barclay, killed; Julian C. Biddle, killed; Andrew C. Campbell, killed; Oliver M. Chadwick, killed; Victor Chapman, killed; Edmund C. Genet, killed; Ronald Honaker, killed; James McConnell, killed; Douglas McMonagle, killed; Norman Prince, killed; Giffen Y. Rockwell, killed; Corp. S. Walcott, killed; and Major William Shaw.

Great Britain—Capt. Albert Ball, killed; Capt. Fletcher Philip Fullard, Canada—Major William A. Bishop, France—Capt. Gdynemer, killed; Lieut. Dorne, killed; Adjutant Lenoir, killed; Lieut. Chaput, killed; Lieut. Nungesser, Lieut. Garros, Lieut. Fonck, Capt. Herteux, Lieut. Madon, Capt. Doullin, Capt. Pinsard and Sub-Lieut. Guesguin.

Italy—Lieut. Baracca, killed; Sub-Lieut. Olivari and Major Picco.

Belgium—Lieut. Thieffry.

BRILLIANT ATTACK BY FRENCH TROOPS

Ground, Including Village, is Taken Southeast of Amiens; Over 500 Prisoners

Paris, July 13.—The following official report was issued here last night: "Our troops this morning launched a brilliant attack on a front of five kilometres (approximately three miles) between Castel and the north of Mailly-Raineval (southeast of Amiens). All of our objectives were reached and we have occupied the village of Castel, the Anchin farm and a number of strongly fortified enemy positions. French troops penetrated the enemy lines to a depth of two kilometres and have taken more than 500 prisoners."

British Report.

London, July 13.—Field-Marshal Haig reported last night: "A raid attempted by enemy troops this morning in the neighborhood of Buequoy, south of Arras, was driven off with loss to the enemy.

"Except for some hostile artillery activity in the Hinges sector and at other points, there is nothing further to report from the British front."

Aerial Operations.

"Aviation—On July 11 heavy rainstorms limited activity in the air on both sides, but our machines carried out reconnaissance work and observation for the fire of our artillery whenever brighter intervals permitted.

"Six tons of bombs were dropped on railway junctions behind the German lines. Three hostile machines were destroyed during the day, and two were driven down out of control. Three of our machines are missing.

"Night flying was impossible."

Report from Pershing.

Washington, July 13.—Five American aeroplanes which went on a bombing expedition failed to return, a communication from General Pershing issued here last evening stated.

German Statement.

Berlin, July 12.—Via London, July 13.—All six of the American aeroplanes which attempted to bomb Coblentz have fallen into German hands. The capture of five was reported yesterday and an official report to-day that the remaining machine had been shot down. The report follows:

"The sixth aeroplane of the American squadron which attempted to fly to Coblentz, as reported yesterday, has fallen into our hands after being shot down."

An official statement issued this evening says:

"There were local engagements to-day south of the Somme and on the western bank of the Aisne."

British Gains.

With the British Army in France, July 12.—Via London, July 13.—(By the Associated Press)—British operations in the Merris sector since Tuesday have brought their line forward to within about a quarter of a mile west of that hamlet and secured for the British complete observation of German positions in the village.

Wait, Said Hindenburg.

Amsterdam, July 13.—Field-Marshal von Hindenburg recently wrote a reassuring letter concerning the war to Gen. von Reht, president of the Fatherland Party at Naumburg, according to The Cologne Gazette.

"Things are going well," von Hindenburg wrote, "only our friends, the armchair strategists, must allow us a breathing spell, which cannot be dispensed with nowadays when battles last eight days or longer, when the army can no longer be concentrated on a single battlefield and when both great powers of the world are able to produce artillery which can enter into action with full force simultaneously on the entire front. Therefore, patience!"

FRENCH GENERAL NOW AT HEAD OF THE GREEK STAFF

Paris, July 13.—(Havas Agency Dispatch)—General Gramat, of the French army, has been appointed Chief of the General Staff of the Greek army.

HAVE YOU REALIZED THE PRACTICAL WAR-TIME FOOD VALUE OF

Royal Standard Products

Enquire about these flour substitutes to-day.

They will make Wheat Flour saving easier.

Have you been able to find good, reliable cereal substitutes for Wheat that can be employed in your baking—substitutes that are nutritious, wholesome and economical?

Scores of households have happily solved this general war-time problem by the use of one or more of the substitutes given below:

ROYAL STANDARD RYE FLOUR
ROYAL STANDARD YELLOW CORNMEAL
ROYAL STANDARD ROLLED OATS
ROYAL STANDARD OATMEAL

NOTE—We have recently received a considerable shipment of WHITE CORN FLOUR which has taken such a high place as a Wheat Flour substitute in the United States. It is particularly agreeable and contains most of the excellent food-properties of Wheat Flour.

PROHIBITION AND COAL IN THE U.S.

Bituminous Operators Say Country Will Have More Coal If "Dry"

Washington, July 13.—Immediate nationwide prohibition is absolutely necessary if the extra 100,000,000 tons of coal a year needed by the country in its war on Germany are to be mined, Fuel Administrator Garfield has been informed by the National Coal Association, representing bituminous operators producing 400,000,000 tons of coal annually. Dr. Garfield is understood to have laid the association's recommendations before President Wilson for his consideration.

In a statement last night the association said in the opinion of a special committee of its members from virtually all coal producing sections of the country which had investigated the question, the country can not have both booze and sufficient coal this winter.

"The liquor traffic," said the statement, "is curtailing coal production and the time has come to eliminate it if there is to be the substantial increase in coal output the war programme demands."

CASUALTIES AMONG CANADIAN SOLDIERS

Ottawa, July 13.—The following casualties have been announced:

Infantry.

Reported dead by Germans—Lieut. R. G. Foley, M. C., Ottawa.

Presumed to have died—Pte. J. Turner, West Vancouver; Pte. F. Silva, Nanaimo; Pte. T. A. Walter Young, Proctor, B. C.; Pte. R. Biggs, Vancouver.

Missing—Pte. F. W. Nation, Vancouver.

Mounted Rifles.

Presumed to have died—Pte. R. T. Mansell, Victoria.

Infantry.

GET THESE FACTS RIGHT!

The problem of delivering fuel next winter is going to be serious for those who live in the outlying districts of Victoria.

Shortage of horses, shortage of man-power, and other abnormal conditions have brought about this state of affairs.

The only way to ensure warmth and comfort next winter is to begin stocking up NOW.

There is every chance that you will also save money by doing so. In all probability prices will be higher next winter.

Phone to-day and we will deliver. Our New Wellington Coal is the finest household fuel on the Pacific Coast.

CONSCRIPTION PLAN IN CUBAN REPUBLIC

Bill Approved by House After
Bitter Debate; Committee
Revising Measure

Havana, July 12.—The bill to establish compulsory military service in Cuba, following four days of the bitterest debate, was approved by the House last night by a vote of forty-five to twenty-six. Under a previous agreement a committee consisting of three Conservatives and an equal number of Liberals, was then appointed to revise the bill.

As it now stands, the bill would make eligible to draft all able-bodied males between twenty and thirty and would be perpetual in its operation. The Liberals have strenuously opposed it on the ground that it is an exact duplicate of the Prussian law.

NEUFELD, "PRISONER OF MAHDI," IS DEAD

German Was Rescued at Omdurman by Kitchener's
Troops in 1898

Amsterdam, July 12.—Karl Neufeld, known as "the prisoner of the Mahdi," died in a sanitarium near Berlin, according to advices reaching here.

Karl Neufeld was rescued from a Mahdist jail at Omdurman in September, 1898, where he had been a prisoner for ten years and subjected to horrible torture. His rescuers were British troops commanded by Lord Kitchener. During his imprisonment Neufeld gained a fluent knowledge of Arabic and Mohammedan customs. After his release he made pilgrimages to Mecca and successfully passed a searching examination on the Koran when his claim to being a Mohammedan was disputed.

At that time he spread the prevailing belief among uninformed Mohammedans that Kaiser Wilhelm is the Grand Caliph of the European Mohammedans and went to war to free them from Christian oppression.

GERMANS NOW FEAR ALLIED FORCES IN NORTHERN RUSSIA

Amsterdam, July 12.—German official circles are of the opinion, says a Berlin dispatch to The Rheinische Westfälische Zeitung, that in the event of civil war breaking out in Russia the vital interests of Germany would force her to act on her own account, in order to eject the British in the north. (The reference here evidently is to the Murman coast region, where Allied forces have been landed for the protection of supplies sent to Russia by the Entente.)

Intervention by Japan in Siberia, adds the dispatch, is regarded as of secondary importance, because Russia, having no interests divergent with those of Japan, would soon succeed in arriving at an understanding with her.

GERMAN COLONIZING SCHEME IN ALSACE

Amsterdam, July 12.—At Thursday's session of the Reichstag main committee of the German Reichstag the Progressives, the Deputies of the Centre Party and the Socialists criticized a contract, which had been entered into between the Government and the Westmark Land Company, which intends to purchase estates in Alsace-Lorraine and settle them with persons "who are reliable from a national standpoint." Mathias Erzberger, the Centre Party leader, who declared that neither of the Alsace-Lorraine legislative Chambers favored the contract, said his party would vote against it.

HERTLING'S IDEAS ON QUESTION OF PEACE

Says Berlin Would Consider
Proposals, but Allies Must
Make Them

London, July 12.—A debate on the general political situation was opened in the Reichstag on Thursday by Imperial Chancellor von Hertling, who discussed the retirement of Dr. Richard von Kuehlmann, the German Foreign Secretary, the foreign policy of the Government and economic problems arising from developments in the East. According to a German official wireless message the Imperial Chancellor said:

"I maintain the standpoint of the imperial reply to the peace note of Pope Benedict. The pacific spirit which inspired that reply also has inspired me. As long as I added that this spirit must not give our enemies free conduct for an interminable continuation of the war.

"What have we lived to see, however? While for four years there has been authorized whatever of our willingness to hold out our hand toward an honorable peace, we have heard until the last few days inciting speeches delivered by enemy statesmen. President Wilson wanted war until we are destroyed, and what Mr. Balfour, the British Secretary of State for Foreign Affairs, has said must really drive the flesh of anger to the cheeks of every German.

"We feel for the honor of our fatherland, and we cannot allow ourselves to be constantly and openly insulted in this manner, and behind the insults is the desire for our destruction. As long as this desire for our destruction exists, we must endure, together with our faithful nation.

Policy Unchanged.
"In the direction of our policy nothing will be changed. If, in spite of those hostile statements by these statesmen, any serious efforts for the paving of the way to peace were to show themselves anywhere, then, quite certainly, we would not adopt a negative attitude from the very beginning, but would examine these seriously meant—I say, expressly, seriously—efforts immediately with scrupulous care.

"Naturally, it is not sufficient when some agent or other approaches us and says to us: 'I can bring about peace negotiations, then and there,' but it is necessary for the appointed representatives of the enemy powers duly authorized by their governments to give us to understand that discussions are possible, discussions which for the time being naturally would be within a limited circle.

"But the statesmen who have spoken up to the present time have not said a word of this kind. When such possibilities manifest themselves and when serious inclinations toward peace show themselves on the other side, then we will immediately go into them. That is to say, we will not reject them—and we will speak, to begin, within a small circle.

"I also can tell you that this standpoint is not merely my own standpoint, but that it is shared emphatically by the chief of the army administration. The chief of the army administration also does not conduct war for the sake of war, but has said to me that as soon as a serious desire for peace manifests itself on the other side we must follow it up.

"You will be interested to know how we are working on this standpoint, and certain problems will appear which the present time forces upon us.

Junkers Talked.
"Exhaustive discussions took place regarding these questions on July 1 and 2 at general headquarters under the presidency of the Kaiser. Naturally, I can only announce here quite generally the lines which were laid down at the time regarding the East and West, but on the basis of the peace of Brest-Litovsk we wish to see this peace carried out in a loyal manner. That is the wish of the German Imperial administration, and it is supported in this by the chief of the army administration.

"However, the difficulty of the execution of the peace of Brest-Litovsk does not lie on our side, but in the fact that conditions in Russia are still exceedingly uncertain. We are inclined to believe in the loyalty of the representatives of the Russian Government in Berlin. But we may not, and cannot, assume unconditionally that the present Russian Government has not power to carry through everywhere the loyal promises made to us. We do not at all wish to create difficulties for the present Russian Government, but as conditions now are, there are incessant developments and restrictions in the frontier region. However, our principle is that we stand on the basis of the peace made at Brest-Litovsk and we will carry out this peace loyally and will deal loyally with the present Government.

"We are still under the depressing influence of a terrible crime in Moscow. The murder of our Ambassador there was an act in violation of international law, and which a worse could never cry to heaven.

"All indications point to the fact that the accused deed was instigated by the Entente Allies, in order to involve us in fresh war with the present Russian Government—a state of things which we are most anxious to avoid. We do not want fresh war with Russia. The present Russian Government desires peace and needs peace, and we are giving it our support in this peaceful disposition and aim.

Hintze is Bound.
The Chancellor passed to a review of the political situation in the West. He then spoke of the reasons which led to the resignation of Dr. von Kuehlmann, and concluded:

"The name of the man who is proposed as Dr. von Kuehlmann's successor is known to you. Admiral von Hintze possesses a thorough knowledge of Russian affairs, which is a matter of great importance in the present situation. But it goes without saying that I will give my counter-signature to the appointment of Admiral von Hintze only on condition that he follows my line of policy and not his own.

"However, as far as I am concerned, I already have a sure guarantee for this in Admiral von Hintze's promise. I will direct the line of foreign policy, and the Secretary of State for Foreign Affairs has merely to carry out my policy. The proposed Secretary of State for Foreign Affairs is absolutely clear on this point.

"The course with which the great majority of the Reichstag decided itself to be in agreement last year will be followed."

A Most Exceptional July Sale Offering of Washable Gloves.

A Fortunate Purchase of "Dent's Washable White Doeskin Gloves

On Sale To-night at \$1.25 Pair

Sizes 6, 6½, 6¾, 7, 7½

Fortune favored our Mr. Campbell, who is on a buying trip east, in the purchase of 300 pairs of Dent's White Washable Doeskin Gloves that we will offer at the most attractive price of \$1.25 per pair.

When one stops to consider the steadily advancing prices on all lines of Kid Gloves, you will at once realize the importance of this remarkable glove offering. It will pay you to purchase 3 or 4 pairs for future use.

FRANCE'S DAY.

To-morrow will be the 129th anniversary of the destruction of the Bastille, the sombre symbol of Bourbon tyranny amid the ruins of which the French Republic was born. But many years of travail, many astonishing transformations, were to pass before the republican foundations were well and truly laid. The mob rule of the first revolution with its excesses crimsoning the Seine; the dictatorship and Empire of Napoleon with its many years of wars which spread over all the world; the return of the Bourbons; the second revolution and the Second Republic; the Empire of Napoleon the Third, Sedan, the Commune and the Third Republic, all marked the evolution of France from the overthrow of Louis the Sixteenth to the establishment of the Republic as the world now knows and glories in, an evolution which traversed more than eighty years. It took the German victory at Sedan to do finally for French liberty what the revolutionists of 1789 started when they tore down the Bastille. How unshakable was the foundation that was finally laid forty-eight years ago, to the thunder of hostile guns, the last four years have triumphantly proved. Never before in all her wonderful history has France revealed the greatness of her soul as she has revealed it in the last four years, in the sublime fortitude and dignity with which she has borne her sufferings, and the splendid demonstration of her valor and skill on the battlefield and her ingenuity and industry in the workshop.

THE TENSION RELIEVED.

The District Officer Commanding in Alberta has given the Chief Justice of the Alberta Supreme Court an undertaking that no man for whom writs of habeas corpus have been issued would be removed from the jurisdiction of the Court before twenty-four hours' notice had been given to the sheriff.

This course will greatly relieve the tension, which never would have existed if the Ottawa authorities had not rushed some of the men involved outside the jurisdiction of the Court without regard to the Court's decision, on the strength of one of its all-too-frequent Orders-in-Council. The Court on its part no doubt will grant a stay of proceedings and both sides will be able to await the decision of the Supreme Court of Canada which now is dealing with the issue.

If there is any incompatibility between the manpower situation of Canada and the integrity and authority of the courts of this country it is not the fault of the courts. It is just as easy to send adequate reinforcements without involving an armed clash between the two chief institutions of the country as to send them the other way, and it is much safer. There has been no such grave development in Great Britain, where the Government proceeded with its new measures by Act of Parliament instead of by Order-in-Council, or in the United States which has performed an unprecedented transportation achievement under an Act of Congress.

ALLIED MANPOWER.

According to a correspondent of the Havas News Agency the British fighting forces in France now number 2,000,000, which equals the maximum strength of their army in 1917, when they undertook several very heavy and costly campaigns and captured important German positions in Artois and Flanders.

Just what the correspondent means by "fighting forces" is not clear. In his speech in the early stages of the German offensive last March, and which Major-General Maurice criticized, Mr. Lloyd George stated that at the commencement of the fighting the combatant German and Allied forces on the West Front were numerically equal, but later explained that he included auxiliary services among the combatants. Undoubtedly, however, as between the Germans and the British the enemy had a large superiority in forces directly engaged, and as he used some 1,500,000 between the Oise and Ypres it is evident that the corresponding services on the British side could not have numbered more than a million.

If there are now 2,000,000 men of the active battle-line services in France, then Great Britain also has performed a remarkable feat of organization and transportation, for she has added nearly a million men to her army in France and Belgium since last March. It is no secret that up to some months ago she had reinforced her army by almost half a million men, so the French correspondent's estimate cannot be far out.

With the British fighting forces in France and Flanders numbering 2,000,000, the French army still larger, 750,000 out of the 1,100,000 Americans actual fighting men, and 250,000 Italian

soldiers on the French Front, besides the efficient little Belgian army, the Allies between the North Sea and Switzerland at least must have overtaken what numerical superiority the Germans had. And as their numbers are being increased at the rate of nearly 300,000 a month from the United States alone, while additional British and French classes are being called up, it will not be long before the advantage in manpower will incline very considerably to their side.

The improved manpower situation has given Foch an opportunity to conduct a number of sharp local offensives in which he has bitten freely into the German salients in Picardy and south of the Aisne. Yesterday on a front of three miles south-east of Amiens French forces penetrated the enemy line for more than a mile, capturing the town of Castel and other strong German plateau positions. Previous to that the French annexed the villages of Courcy and Longpont between the Aisne and the Marne, improving their positions protecting the crucial Villers Cotet forest and putting the Germans between the French and the Americans, northwest of Chateau Thierry, in an uncomfortable position. All these may be defensive operations in anticipation of the next German attack, or they may be the forerunners of an offensive by the Allies.

STILL POURING ACROSS.

German military critics are not very happy in their efforts to allay anxiety in Germany over the American war effort. Their methods are so clumsy that if they were employed in most countries they would have an effect directly contrary to what they are intended to produce. First, they say that they cannot believe that Secretary Baker's figures are correct because of the scarcity of tonnage, and then, that even if the Secretary told the truth, the Americans do not count, anyway, against our "war-proof, unconquerable troops."

This is poor stuff and cannot allay the anxiety of the German people if they remember that the same doses were served to them by the same writers when Great Britain entered the war. First it was "General French's contemptible little army," then "Kitchener's mob" while the troops of the overseas Dominions were described by Major Morait as "wholly negligible." The German bulletins have not yet mentioned the capture of Cantigny, Vaux and Belleau Wood by the Americans, carefully describing these operations as having been undertaken by the "Allies," but the German people, having access to neutral newspapers, must be aware of it, and also of the fact that notwithstanding frequent desperate counter-attacks the "war-proof, unconquerable troops" were unable to regain an inch of the ground they lost.

Meanwhile, General March announces at Washington that the movement of American troops across the Atlantic continues at the same rate as in recent months, 1,100,000 being now in Europe. This means that nearly 90,000 crossed the ocean during last week and that 300,000 will have been sent overseas in July. There will be over 1,500,000 American soldiers in Europe before the first of September. As for the submarine campaign, Secretary Daniels declared a few days ago that the largest troop convoy yet dispatched from America left Atlantic ports while the enemy's underwater craft were operating in American waters.

General March also makes the important announcement that three American army corps of 225,000 to 250,000 men each have been definitely organized in France. This is a fine feat of military organization and shows that the assimilation of the troops pouring across the Atlantic is being carried on with high speed and efficiency.

HIS IDEAL.

Chancellor von Hertling says Germany would not reject peace offers by the Allies "seriously meant," but would examine them with "scrupulous care" and the discussions would be "limited to a small circle." It appears that the "peace" of Brest-Litovsk is his ideal, the terms of which the German army violated before the signatures on it were dry and which the Chancellor in this very same speech intimated Germany may violate further, on the ground, no doubt, of that "German necessity which knows no law" and that, anyway, a treaty is only a "scrap of paper."

The peace terms of the Allies have been on the table for months. President Wilson again emphasized them on July 4. As Mr. Lloyd George says, Germany can have peace on those terms to-morrow, but she cannot have peace on any other terms because in such a case this war would have to be fought over again. It will be noted that the Chancellor interpreted the first paragraph of the President Wilson's summary of war as a declaration that Germany must be destroyed. Well, here is the item:

"(1) The destruction of every arbitrary power anywhere that can separately, secretly and of its single choice disturb the peace of the world; or if it cannot be completely destroyed, at the least its reduction to virtual impotence."

What's wrong with this? If Germany is an innocent victim fighting only in her own defence, as the Chancellor says she is, why does he regard this as a sentence of her destruction? The truth, of course, is that it is snarling, spitting Prussian militarism, determined to keep its vile hands on the throat of Germany as well as on the throats of Germany's Allies and Russia, and realizing that it answers perfectly the description in the item we have quoted, which is speaking through the mouth of von Hertling. No wonder the Chancellor desires a peace with the Allies like the peace of Brest-Litovsk!

USE OF SUGAR IS FURTHER CUT DOWN.

Board Restricts Makers of Soft Drinks and Fruits for Soda Fountains

Ottawa, July 13.—Further restrictions have been placed by the Canada Food Board on the use of sugar by manufacturers of soft drinks, fountain fruits and syrups, jelly powders, etc., and by proprietors of soda fountains and ice cream parlors. The order, as signed this morning, requires that on and after August 1 all manufacturers who use sugar in making any of their products whatsoever must be licensed by the Canada Food Board. On and after July 15 every manufacturer of soft drinks, fountain fruits, syrups, dessert or jelly powders, and marshmallow powders, and every proprietor of a soda fountain or ice cream parlor, will be limited in his use of sugar during certain months of July, August and September, 1918, to seventy-five per cent. of the average monthly amount of sugar used by him during 1917.

Permits Required.
Retail grocers are forbidden to sell sugar to any manufacturer unless the latter has obtained a special permit to purchase sugar from retail grocers. The order includes a clause to the effect that the manufacture of soda fountains are required to use fresh fruits in season whenever possible.

Canners who have not heretofore made soda fountain fruits or fruit juices for soda fountain use are prohibited from doing so. Canners who have been making such products are required to file sworn statements of the amount of sugar used for this purpose during July, August and September, 1917, and during July, August and September of this year they must not use in making such fruits more than fifty per cent. of the sugar so used during the corresponding months last year.

No Icing Sugar.
Since the use of sugar for icing cakes or biscuits has been prohibited, the order makes illegal, unless under special permit, the manufacture for sale of icing sugar, icing powders or any preparation of sugar which is used largely for this purpose.

No license for the manufacture of candy or chocolate products, beers, ales, or soft drinks, fountain syrups, marshmallow powders or dessert or jelly powders, in which sugar is used, will be issued to any person who was not engaged in such manufacture before and up to May 1, 1918.

The order is effective July 15 and violation of any of its provisions is punishable by a fine of from \$100 to \$1,000, or imprisonment for up to three months, or both fine and imprisonment.

BELGIUM A PAWN, SAYS VON HERTLING

(Continued from page 1.)

turally, also security in regard to the future. This is in complete conformity with my point of view with regard to Belgium, but how this point of view can be established in detail depends upon future negotiations, and on this point I am unable to give binding declarations."

Amsterdam, July 12.—Via London, July 13.—Chancellor von Hertling, the German Governor-General of Belgium, has decided, says The Hamburger Nachrichten, that Belgium shall be turned into a federal state on the lines of Austria.

Flanders and Walloon, the newspaper adds, will live separately under one kingdom or be under German control.

Omitted.
London, July 13.—Contradictions of policy among the German officials seemingly has another illustration in the manner of the publication of the statement made by Count von Hertling, the German Imperial Chancellor, regarding Belgium.

The German wireless service yesterday put out a long report of Chancellor von Hertling's speech which ignored all reference to Belgium. It gave a full report of the Chancellor's discussion of Russia and continued: "In connection with this point the Imperial Chancellor passed in review the political situation in the west."

The natural inference seems to be that whoever the officials were who issued the wireless version they did not want Count von Hertling's statement regarding the West circulated. There was much curiosity here regarding this part of his speech which was omitted.

VIENNA CONTROLLED AUSTRIANS' SAVINGS IN UNITED STATES

New York, July 13.—How the Austro-Hungarian Government got control of the savings of its emigrants to this country through the Trans-Atlantic Trust Company, now seized by the Government, was told yesterday by Francis P. Garvan, investigator for the Allen Property Custodian.

The emigrants, upon their arrival in New York, he stated, were met at the piers by an agent of the bank who directed them to boarding houses, the keepers of which were representatives of the Trans-Atlantic institution. Even the services of clergymen were utilized to impress Austro-Hungarians with the importance of placing all their funds with the establishment, whose controlling hand reached from Vienna.

Millions of dollars' worth of Austro-Hungarian and German war bonds were sold to these emigrants and to others who had become American citizens. On the day federal authorities seized the bank it had 14,000 depositors and 60,000 customers located throughout the country. Its deposits totalled \$7,000,000. Since its organization it had sent a total of 182,000,000 kronen (\$72,800,000) to Austria-Hungary. When war was declared to exist between the United States and the Dual Monarchy, the bank invited depositors to place remittances with it "for transmission after the war," and a big business was done in this branch.

U. S. SENATORIAL CONTEST.

Washington, July 13.—President Wilson to-day in a letter asked Senator Lewis, of Illinois, to accept a re-nomination and make a campaign for re-election.

Buy Only What You NEED

Figure the cost of your coal by the month or the year—not by the price—then you will see how much cheaper good coal is than cheap coal. The coal you want again and again.

IMPROVEMENT PLAN FOR PORT OF PARIS

Paris, July 13.—A committee of the municipal council of Paris has submitted a report approving the issue of a credit of 50,000,000 francs, with which to defray the expenses connected with improving the port of Paris.

Two years ago Marcel Zembat, Minister of Public Works, announced that a project was under way for improving the traffic facilities between Paris and Havre. Railroad tracks and a barge canal were planned to relieve shipping congestion between Paris and the sea. It is probable that the foregoing project is connected with the plan announced by M. Zembat.

NORWEGIAN BARQUE TAKEN BY U. S. BOAT

An Atlantic Port of the United States, July 13.—A German submarine, appearing 300 miles off Cape Race on July 6, stopped the Norwegian barque Manx King and ordered the crew of nineteen to take to the boats, it was learned last night when the survivors were brought here on a British steamship which had picked them up at sea. The survivors said they did not know what became of the barque, whether she was sunk or converted into a raider by the Germans.

DRAFT CALL IN U. S.

Washington, July 13.—Provost-Marshal-General Crowder to-day issued a draft call for 12,143 registrants of grammar school education and qualified for general military service. These men, 184 of whom are negroes, will entrain between August 1 and 25 for various schools for special occupational training to fit them for army service.

Latest Arrivals in Stylish Furniture Pieces

You are sure to be pleased with these newest arrivals in the Furniture Section—they are some of the nicest styles we have yet shown.

There is a particularly nice Dining Table and set of Dining Chairs. These come in the very latest design and in the popular Jacobean finish.

Government St. Near Post Office

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, July 13, 1893.

It was rumored to-day that Mr. Dalridge had completed arrangements to put a line of steamers on the route between British Columbia, Washington, and the Orient, in connection with the Great Northern Railway.

The Mayor and Aldermen, with the directors of the Esquimalt Water Works Company, leave for Thetis Lake and Goldstream to-morrow by a special train to inspect the waterworks.

The sealing schooner Borealis arrived in port last evening, bringing 1,307 skins, of her own catch, as well as many others.

The Shortest Way To the Out-of-doors

RIGHT to your door; fresh every day; comes the 4-X Bread man with his "15 extra leisure hour" giving loaf of Victory Bread; 15 hours, that it takes you to turn a 50 pound sack of flour into loaves.

AND such bread! Bread, that because of the scientific machinery used in making, plus the richness of ingredients other than flour, can not be duplicated elsewhere. Fine in grain, possessed of great elasticity of texture, it will pleasantly surprise you; yes, and eliminate your baking worries besides.

Give it a trial and see

A BEDTIME STORY

UNCLE WIGGILY AND THE BICYCLE PUMP

Copyright, 1918, by McClure Newspaper Syndicate
(By Howard R. Garis)

Outside of his hollow stump bungalow, Uncle Wiggily Longears, the bunny rabbit gentleman, one day heard a sad voice saying:

"Oh, dear! This is too bad! Now I can't ride any more! I can't have any fun!"

"Ha, hum! Trouble! I might have known it when I got out on the wrong side of the bed this morning," said the bunny rabbit.

Then he twinkled his pink nose and, taking off his tall silk hat, out on the bungalow porch he went to see what was the matter. Billy Bushytail, the squirrel boy, stood near a next year's Christmas tree with his bicycle leaning against him.

"What's the matter, Billie?" asked Uncle Wiggily. "Why aren't you riding?"

"Oh, all the air has come out of my bicycle tires," answered the little squirrel boy. "I can't ride on flat tires for they go bumpity-bump-ump!"

"Why I thought you had angle worms for tires," spoke the bunny uncle. "Surely the air hasn't all come out of them?"

"Oh, no," answered Billie. "But you see I haven't the angle worms tires any more. They are off on their vacation, and the kind of tires I now have on my bicycle are the regular rubber ones. I had them full of air, but it hissed out and I have to put some fresh air in. Have you a pump, Uncle Wiggily?"

"Oh, yes," answered the bunny rabbit gentleman. "Come into the kitchen, Billie, and you may use Nurse Jane's sink pump."

"Oh, that's a water pump. I want an air pump," spoke the squirrel boy, laughing so that he showed all his nut-cracking teeth. "Have you an air-pumping bicycle pump, Uncle Wiggily?"

"No," answered the bunny rabbit gentleman, "but I will get you one. Leave your bicycle here, Billie, and come with me to get an air pump."

So the squirrel boy left his bicycle at the bunny uncle's hollow stump bungalow, and they both started off over the fields and through the woods to the pump store.

They found it not far off, near where a lot of puff balls grew, for the puff balls helped to make the bicycle pumps. "Ha! That's a fine one!" cried Billie, as he worked the handle up and down and made some air shoot out of the pump, so hard that it blew off Uncle Wiggily's tall silk hat as though a strong wind had come along.

"Be careful, Billie!" cried the bunny rabbit gentleman. "You may blow yourself up with that pump."

"Oh, I guess not," said the little squirrel boy. "But I'll take it home and pump up my bicycle tires."

So he and Uncle Wiggily started back for the hollow stump bungalow. They had not gone very far before they came to the little lake where Uncle Wiggily had once helped the black swan. On the lake was a small sail boat.

"There is a good breeze blowing," said the bunny. "Come, Billie, we will sail in the boat and the breeze will blow us across the lake. Then we will be home so much the sooner."

"Fine!" cried the squirrel boy. "We'll do it!"

Into the boat he scrambled, followed by Uncle Wiggily. The bunny rabbit held the sail, the wind puffed on it, and blew them half way across the lake. Then, all of a sudden the wind stopped blowing and there Uncle Wiggily and Billy were in the middle of the lake, and no way of getting to shore. The wind would not blow them, though they whistled for a breeze, they had no oars to row and no engine in the boat. They could not walk on the water, and it was too far to swim.

"Oh, what shall we do?" chattered Billie. "I want to ride my bicycle."

"And I want to get home to my bungalow so Nurse Jane will not worry," said Uncle Wiggily. "How can we make a wind to blow the boat?"

"Ha! I have it! We can make a breeze with the bicycle pump!" cried the squirrel boy. "Work the pump and blow the air on the sail, and we will soon be home."

Uncle Wiggily slowly shook his head. "No, Billie," he said. "Why not?" asked the squirrel boy. "Because it would be like trying to lift yourself off the floor by pulling hard at the tops of your shoes," said the rabbit. "You can't sail a boat that way, Billie."

But just then a real breeze sprang up and blew the boat and Uncle Wiggily and Billie were soon safe on shore, and the squirrel boy, after pumping up his tires, rode his bicycle all over everywhere.

And if the lead pencil doesn't get a black mark for staying out late to hear the rubber band play mosquito music, I'll tell you next about Uncle Wiggily and the window shade.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

IN WOMAN'S DOMAIN

VICTORIANS FORCED TO CAMP ON MALAHAT

Tally-Ho Conveying Diggon-McLean Troupe From Shawnigan Broke Down

Over twenty Victorians tasted the joys of the simple life early this morning when a tally-ho "jibbed" on the way home from Shawnigan, and with all the obstinacy usually accredited to the mule, refused to negotiate the summit of the Malahat. The travelers included the members of the concert party assembled by Harold Diggon and L. D. McLean, who had been up to Shawnigan to give an entertainment in aid of the Red Cross. On their way up from Victoria a mishap also occurred to the car, causing the party to arrive at the scene of the concert one and a half hours after scheduled time. Fortunately the fame of the troupe had preceded them from Duncan, where they appeared recently, and the residents of Shawnigan evidently thought the concert was worth waiting for as on the belated arrival of the artists the hall was fairly well filled with a patient crowd.

On the homeward journey everything went smoothly until just before the summit of the Malahat was reached at two o'clock, when for no reason apparent to the uninitiated, the car stopped. Neither calmer nor the united efforts of Messrs. Diggon and McLean, whose well-known propensities for producing comicalities out of tall hats and cards from nowhere failed to arouse the slightest evidence of a movement on the part of the car. Realizing that a night in the open was the only prospect, the party lighted a huge bonfire and after conducting a series of dances round the blaze—whether to propitiate the evil spirits responsible for the car's defection or merely to engender a certain amount of warmth in their bones is not known—the artists composed themselves for sleep until such time as other automobiles came that way. Fortunately, their cold and somewhat unpleasant experience came to an end shortly after five a.m. and a tired but nevertheless enthusiastic crowd of entertainers crept into the city in the early hours huddled in the arms of a sinning but triumphant tally-ho.

Social Personal

During the past week Miss Ruth Fulton and Miss Helena Bodie, of Vancouver, have been the guests of Miss Kathryn Bradshaw at Cordova Bay.

Dr. and Mrs. H. E. Thomas and Miss Eleanor Alper have returned to their home in Vancouver after making an automobile tour of Vancouver Island.

The Misses Margaret and Violet Forrester, of Nanaimo, have arrived in the city to spend a vacation at the guests of their aunt, Mrs. Robert Vipond, of this city.

Hugh McLean, of Kamloops, who has been visiting Mr. and Mrs. Angus McLean, Trutch Street, for the past week, returned to Vancouver to-day en route to his home in the interior.

Capt. and Mrs. A. Ewart Jukes went over to Vancouver yesterday to spend a few days in the mainland city as the guests of Capt. Jukes's parents, Mr. and Mrs. Andrew Jukes, Broughton Street.

Dr. H. N. Maclean, pastor of St. Paul's Presbyterian Church, arrived home on Thursday afternoon from the mainland and will occupy his own pulpit on Sunday.

Miss Doris Hicks, a pupil of Miss Tobin's, passed the elementary grade in the recent examinations held under the auspices of the Victoria School of Music, of London, England.

The Hollywood branch of the Red Cross have postponed the Monday night dance at the Margaret Jenkins School until Monday evening, July 22, when they hope for a large attendance of residents of the district.

Mr. and Mrs. George G. Bushby, of Vancouver, arrived in the city yesterday to make a motor tour of Vancouver Island. They intend to go as far north as Parksville and expect to return to the mainland early next week.

The Rev. Professor Cosgrave, of Toronto, who has been lecturing at the Victoria Summer School during the week, is the guest of Rev. and Mrs. F. P. Chadwick at St. John's rectory. He will preach at both services at St. John's Church, to-morrow.

Mrs. Burris, wife of Dr. J. S. Burris, of Kamloops, accompanied by her little daughters Nancy and Margaret, arrived in the city yesterday on a month's vacation. During their stay they are among the guests at the James Bay Hotel.

The members of the Navy League Chapter, I. O. D. E., are planning a garden fete to be given in the beautiful old gardens at the home of the regent, Mrs. David Dole, Fairview Road, on July 24. A number of attractive features have been arranged, including exhibition tennis, and an open-air concert and dance in the evening.

The Army and Navy Veterans of Canada intend to hold a dance and cafe chantant at the Alexandra Club on Thursday, July 18, along similar lines to the very successful affair held under their auspices recently. A number of well-known local artists have promised to assist and the programme will comprise band selections, vocal and instrumental numbers, a series of national dances and a short sketch.

When the shopman informed her that the price of eggs was six shillings per dozen, she exclaimed: "Six shillings! Why, that's a sixpence for each egg!"

"Yes, mum," said the man; "but you must remember that one egg is a whole day's work for a hen!"

Knives should never be dipped in hot water, as it loosens the handles. The blades may be placed upright in the water in a mug, by which plan the handles will be kept dry.

July's Birthstone—The Ruby, which means a Contented Mind.

A Gift Should Need No Introduction

It should carry a name that in itself expresses the genuine worth, not only of the spirit, but of the article itself.

A Bracelet Watch is an ideal gift.

And scarcely less important than the beautiful accurate watch is the fine, perfectly finished, expansion bracelet that is as delicately made as the watch, yet strong enough for the hardest usage. Buy the Bracelet Watch here, "The Gift Centre."

MUSICAL REVUE NETS \$108 FOR RED CROSS

Handicap of Car Strike and Accumulated Expenses Lowered Financial Results

The advent of the car strike just at the time of the production of their recent musical revue looked like giving the Red Cross Stock Company a nasty blow. With rent and expenses to the amount of some \$550 to meet and the usual means of transporting the public cut off, the outlook was indeed a gloomy one; but thanks to the splendid way in which owners of motor cars turned out to help, the debt was not only paid off, but a profit of \$108.52 was handed to the Red Cross Society. The balance sheet follows:

Receipts.	
To receipts	\$555.25
To rents from sub-letting	115.00
	\$670.25
Disbursements.	
Rent of theatre for June, 1918	\$200.00
Box office and front of house	60.00
Janitor	10.00
Telephone	4.50
Light	22.70
Incidentals	2.75
Advertising	65.88
Dominion Carton Co.	2.00
Petty cash	
Hardware	\$42.25
Properties	95
Stationery	2.15
Out-of-pocket	2.65
Fletcher Bros.	2.00
Motor up-keep	10.00
Stage hands	\$4.00
Mrs. Ross	3.00
Spencer's	28.70
Mrs. Titton (out-of-pocket)	18.20
A. Fairbairn	25.00
	\$561.73
Balance to Red Cross	108.52
	\$670.25

"CLOVERDALE" FETE

Numerous Attractions Planned for Garden Party in Aid of Red Cross on Wednesday.

Every arrangement conducive to the success of their garden party to be held next Wednesday at the home of Mrs. J. W. Tolmie, "Cloverdale," is being made by the committee of the Cloverdale Red Cross.

The usual attraction of garden fete will be in evidence and besides these the tennis tournament arranged by J. G. Brown promises to be most entertaining. During the afternoon Mrs. Roberts's orchestra will supply a musical programme, and in the evening the 5th Regiment Band will play for dancing on the lawn.

No effort has been spared by the ladies to insure the success of the event for which a generous patronage is bespoken.

AN IDEAL.

There is no beauty, if eyes do not behold it.
A cloud, gold fringed, moves across the blue;
A soul reflects the image of its glory.
As a rose, sun kissed, takes on a perfect hue.

There's no love, if hands stoop not to fondle.
A wall forgotten by all mankind.
How many pass without our heeding?
The vision's clear—"tis the heart is blind."

There's no pity, if knowing how some suffer.
You shed no tear to show you understand.
Go, drink deep from out that cup of sorrow,
Then give to those who need a friendly hand.

There's no honor, if only in the doing
You help yourself your own to gain the prize;
There's a nobler purpose—who seeks will find
God's four-leaf clover—there real honor lies.

LAURA LEWIS.

ROOF GARDEN PARTY

Victoria Club Arranges Unique Entertainment on Top of Campbell Building for Wednesday

A unique entertainment will be held by the Victoria Club on Wednesday, July 24, from 3.30 to 11 o'clock. It will take the form of a garden party to be held on the roof of the Campbell Building, where a splendid view of the entire city and its surroundings gives the location great interest.

The centre of attraction will be the Red Cross stall in charge of Miss Oldfield, where a bag competition will be held, each person voting on the bag which they believe should win the prize. Donations of bags to this stall will be entered in the competition, the entire proceeds of which will be given to the Red Cross. Other features will include a mystic table, flower booth, fancy stall, ice cream, afternoon and high tea. An added attraction is a dance will be given in the Victoria Club rooms from 9 to 11 o'clock.

DAILY SHOT AT KAISER FOR HOME FOOD SAVERS

Home-made drier to be set on top of stove or range. It is made of galvanized iron. This and many other suggestions will be found in the free drying book which the National War Garden Commission of Washington will send to any one for two cents to pay postage.

"Orange Lily"—the woman's friend—will transform your life!

If you are of that numberless host of women who silently suffer disorders of an internal nature, let me make you this free and open promise—"Orange Lily" will transform your life. I know the symptoms as well as yourself, for I, too, suffered for years before the discovery of "Orange Lily" home treatment. Now that I am entirely and forever free of the almost unendurable distress and pain of former years, I am only too glad to help others. "Orange Lily" is a local treatment that you apply yourself, without help, in your own home. A few days will work wonders and, like hundreds of others, you'll thank me for making known the good news to you. Write me to-day and let me send you ten days' treatment of "Orange Lily"—absolutely free. It may save you from fatal complications later. When you are free from present troubles just tell others, that is all I ask. Enclose 2c. stamp and address in full confidence Mrs. Lydia W. Ladd, Windsor, Ont. Sold by leading druggists everywhere.

The Strathcona Lodge, Shawnigan Lake B.C.

European plan. Rooms from \$1.00 per day. Meals a la carte. An ideal place for a rest. Tennis, boating, bathing, fishing. Motor boat and cars for hire.

Special rates for week-ends.
M. A. WYLDE, Manager.

THE POETIC SOLDIER.

A soldier who had been wounded on the Struma was brought down to the coast and eventually taken on-board a hospital ship bound for Blyth. When the ship began to steam away, his delight knew no bounds. He hobbled up on deck and gazed around at the sunlit Mediterranean. "It's grand!" he cried. "Just look at the sky and the sea! I want to drink it all in!" "Bill," shouted a sailor nearby, "keep an eye on that bloke. The old ship takes twenty-two feet of water before she'll float!"—Tit-Bits.

There are in Great Britain 16,850 blind-males and 16,650 blind-females.

NEW YORK PEOPLE MUCH INTERESTED IN ISLAND ORE

J. F. Bledsoe Will Report on
Proposal at Meeting
Wednesday

At the meeting of the Central Iron Committee, called for Wednesday evening at the office, Winch Building, Manager J. F. Bledsoe will have an interesting statement to make upon which he desires to take the opinion of the executive.

Mr. Bledsoe has been in negotiation for some time with a group of capitalists in New York, through their engineer. This expert just before the war carried out an investigation, but owing to various difficulties the principals allowed the scheme to go dormant after war broke out. By arrangement the engineer met the members of the deputation at Ottawa during their visit to the national capital and attended a number of the meetings of committees of the Cabinet. While he was naturally non-committal to the deputation, it appears that the principals became once more interested in their proposal. They have since been in communication with their representative in Vancouver, as a consequence of which they have made certain suggestions, one of which is that there should be immediately sent a representative to New York to confer with them.

The plan proposed is a series of three units of 400 tons each, and if it matures as outlined to the deputation would represent a very large investment in the province, embracing all kinds of activities connected with the application of industrial arts to the raw resources of the country. In the latest communication on behalf of the principals the significant statement is made that they do not see any obstacle why their plans should not be carried out now.

COMMITTED HOLDUP

Colored Youth Pleads Guilty to Charge
of Holding Up Chinaman: Another Serious Accusation.

Howard Wallace, a negro, who appeared in the Police Court yesterday and pleaded guilty to a charge of vagrancy was arraigned before Magistrate Jay this morning charged with holding up a Chinaman in company with another lad and of taking \$1.25 from him. Accused pleaded guilty to this charge also and City Prosecutor Harrison explained what he believed to be the circumstances of the case. It is alleged that on the night of July 12 the two youths met a Chinaman at the corner of Cook and Pandora Streets. Accused was smoking but asked the Chinaman for a cigarette. He had then grasped the Oriental by the throat, it is alleged, while his companion went through the victim's pockets, taking \$1.25. The Magistrate, who was informed that accused had been in the juvenile hall in Vancouver, said that he would examine into the young man's record and reserve his sentence until Monday.

Wallace and his companion also appeared in the Esquimalt Police Court on a charge of breaking into a candy and refreshment stand on Tillamook Road at the Gorge and of committing theft. They had been arrested by Constable Andrews. The case was remanded until Tuesday.

OBITUARY RECORD

The remains of the late Mrs. Amelia Rebecca Williams were laid to rest in Ross Bay Cemetery yesterday afternoon. Service was conducted at the residence of her son, 1829 Lillian Road, by the Rev. E. G. Miller at 4 o'clock. A large number of friends were present, and many floral tributes were sent. The following acted as pallbearers: W. Reid, F. C. O'Neill, P. H. O'Neill, C. W. Newbury, W. P. Bassett and J. Morgan.

The remains of the late Arthur St. George Flint were laid to rest in Ross Bay Cemetery yesterday afternoon. The cortege left the residence of the daughter, Mrs. F. C. Pauline, 1480 Dallas Road, and wended its way to St. James Church, where service was conducted at 2.30 p. m. by Ven. Archdeacon Sweet. There was a large attendance of friends and the members of the Masonic Order attended in a body. The funeral was under the auspices of Victoria and Columbia Lodge, No. 1, A. F. & M. Wor. Master W. P. Allen conducted the lodge ceremony at the cemetery. Numerous floral tributes covered the casket. The following acted as pallbearers: M. W. Brox, Wm. Henderson, A. McKeown, Dr. Milne, Richards, North and J. R. Saunders. Interment was made in Ross Bay Cemetery.

Reid Again Remanded.—The case of William Reid, charged with bigamy, was remanded until Tuesday by Magistrate Jay in the Police Court this morning.

GRAY HAIR

Dr. Tremaine's Natural Hair Restorative, used as directed, is guaranteed to restore gray hair to its natural color or money refunded. Positively not a dye and non-injurious. Price \$1.00. On sale in Victoria by Dean & Hiscocks, Druggists, corner Yates and Broad Streets.

Send a package of NELSON'S Maple Butter

in your next overseas parcel. It will be a treat for the folks at home and the boys at the front. Remember, fresh butter is practically unobtainable there.

Nelson's Maple Butter, per lb. 35c
At all grocers.

PREPARING FOR FIGHT

GNR. F. L. MURRIE

only son of Martin Murrie, of Mutrie & Son, is now in training at Witby Camp, England. Gnr. Murrie left Victoria with an artillery draft on March 31 last.

MILITARY SERVICE OFFENDERS IN COURT

Large Number Here From Various Parts of Province; Many Remanded

Military service cases occupied the time of the Police Court for the most part of this morning, a large and varied collection of alleged evaders of the Military Service Act from many different points in the province being arraigned before Magistrate Jay. It appears that these men, some of whom are aliens, had been arrested and had come here at their own expense. The Magistrate asked the reason why they were living, but no satisfactory explanation was forthcoming. Major Cook, acting for the military authorities, stated that the men had been sent here and he had of course taken proceedings.

Martin Lofay, who was brought from Revelstoke charged with failing to report for service though in Class One of the Military Service Act, pleaded that he is an Austrian. The case was remanded until Tuesday. The case of Joseph Garner and Harry McHollister, who came from Nelson and Vernon respectively, and who face similar charges, were dealt with in a similar manner. Sacre Jacobson, a naturalized Finn, of Vancouver, was ordered to be handed over to the military authorities, and Kazymir Sytyk, of Revelstoke, charged with not having papers to show that he is exempt from military service on account of his nationality, was remanded until Tuesday. Robert Pike, who was arrested at Sooke charged with not reporting when in Class One, was dealt with in the same manner. F. K. Jackieles, of Revelstoke, on the same charge, pleaded that he was born in Austria but has been naturalized, was married and over age. He too was remanded until Tuesday.

John Smith, alias Jec Colandeur, charged with failing to report, stated that he is a German but has been in this country since he was a small boy. He had crossed into Canada from the States for the harvest a couple of years ago and has been here ever since. He said that he had admitted his nationality to the authorities in Trail, where he had been apprehended, though on one occasion he had claimed to be a Swiss because there was some prejudice against the land of his birth across the Rhine. Ernest Dunville, facing a similar charge, pleaded that he is under age and was, with the German, remanded until Tuesday.

Patriotic Aid.—The following are among some of the recent subscriptions received by the Victoria Patriotic Aid Society: Staff Canadian Explosives Ltd., \$5; Messrs. Drake Hardware Co. and employees, \$11; staff Bank of Montreal, \$30.25; employees B. C. Electric Railway Co., \$38.38; employees Canadian Explosives Ltd. (James Island), \$229; staff Imperial Munitions Board (Assetby Plant), \$77.25; crew of tug Sadie, \$10; crew of tug Spray, \$10; crew of tug Swell, \$10; C. P. R. Telegraph employees, \$5.45; staff and employees of Messrs. Yarrow, Ltd., \$224.85; staff Mutual Life of Canada, \$5.50; employees City Fire Department, \$59.70; employees Messrs. P. Burns & Co., \$17; staff of The Times, \$13.

GREATER PRODUCTION IN BRITAIN.

Cricket grounds and all waste lands to be cultivated. Members of a Sports Club working on their Grounds now under cultivation.

GOVERNMENT TO TAKE OVER COMPANY LANDS

Acquirement of P. G. E. Development Company's Property Gives Freer Action

DECISION TO EXERCISE OPTION MADE THIS DAY

Immediately on his return from his recent tour of inspection of the Pacific Great Eastern Railway Premier Oliver foreshadowed the possibility of the Provincial Government exercising its option in respect of the lands owned by the Pacific Great Eastern Development Company. At a meeting of the Provincial Executive this morning the Government agreed upon the suggestion of the Premier and by regular procedure that forthwith the Province will assume the proprietorship of some 515 town lots and some 7,000 acres of land situated in various sections traversed by the line already constructed and contemplated.

The Deal Now Complete. The action of the Government also means that so far as the Pacific Great Eastern system is concerned the property of the Development Company is now added to that of the Railway Company and the Equipment Company. In other words the triple concern is now wholly and solely the property of the people of British Columbia, while by the taking of the land the Railway Company is freed from the obligation of paying to the Province the sum of \$350,000, the amount agreed upon in respect of the lands of the Development Company in the event of the company requiring to retain the property in accordance with the terms of the option. The first and second payments in respect of the agreement ratified by the Legislature and amounting to \$750,000 were made some two weeks ago.

Valued at \$1,300,000. The acquirement of the lands by the Province will now enable the Government to take into consideration the question of proper dyking measures necessary for the proper prevention of the township of Squamish, and for the purpose of eliminating difficulty at the wharves. The matter of water supply is one that will also require attention, none the less the question of electric light and power. With perfect freedom of action secured each of these matters will now engage the attention of the Government at an early date. It should be noted that the value placed by the Railway Company upon the lands of the Equipment Company, now to be acquired by the Government, was somewhere in the region of \$1,300,000. Included in the parcel is some sundry equipment for the construction of an electric power plant.

GENERAL HUGHES IS ON INSPECTION TOUR

Reaches City in Company of
General Leckie and
Major Sifton

Major-General John Hughes arrived in Victoria to-day accompanied by Major-General Leckie, G. O. C. Military District No. 11, and Major J. W. Sifton. General Leckie went over to Vancouver for the purpose of meeting General Hughes at the railway terminus.

General Hughes has just recently resumed his former duties as Inspector-General for Western Canada. For some time he acted as G. O. C. Military District No. 10 with headquarters at Winnipeg, reverting to his other duties as soon as relieved by a returned officer from France.

The General's district is a very extensive one and covers all the provinces west of and including Manitoba and takes in the Yukon Territory as well. Before leaving the Mainland the officers made inspections at Vancouver and New Westminster, and to-day are engaged in looking over the local situation.

Severely Wounded.—A dispatch just received in Washington, D. C., includes in the army casualty list the name of William A. Marriot, of Victoria, B. C., who has been severely wounded.

CONCILIATION BOARD CONSIDERING AWARD

Met To-day to Scrutinize Evidence; Aldermen Object to Nature of Inquiry

The Civic Board of Conciliation, having completed evidence yesterday afternoon, concluded its public sittings and adjourned until this morning when the report was considered.

The employees are naturally awaiting the decision with anxiety. While they have a meeting of the Protective Association this evening, it is understood it has no special reference to the conciliation inquiry, and is merely for by-law ratification and similar business. Their representatives conducted their case well and deserve the thanks of the association for putting up a strong argument. They had useful support from the heads of departments who stand little chance of gaining much from an award, and therefore may be regarded as unselfish advocates.

The inquiry came up at the Civic Streets Committee yesterday afternoon, some of the aldermen complaining that there were a number of misleading statements being made, particularly with regard to the Development Association grant, and garbage collection.

Alderman Walker stated that he thought the Commission was going out of its scope in asking some of the questions mentioned with regard to city government. He believed their duty was limited to the wages issue.

Alderman Porter said that some of the erroneous statements made, as with regard to cost of garbage collection, were made voluntarily.

The committee passed to other business without any motion on the matter.

HOLD OBJECTION TO MILITARY SERVICE

Bible Student and Christadelphian Appear in Court

H. W. R. Cousins (20), International Bible Student, and Ernest Penn Sewell (30), Christadelphian, were two conscientious objectors who appeared before Mr. Justice Gregory this morning during the hearing of exemption appeals under the Military Service Act. In the case of the latter the military representative pointed out that though Christadelphians claimed that they should be exempted from combatant service on the grounds that it was against their religious belief, certain prominent members of the organization had sought and some had obtained large contracts in the East and elsewhere for the manufacture of munitions of war. The case was adjourned for the purpose of clearing up certain details.

Mr. Cousins was informed that time after time it had been explained that the International Bible Students could not be given exemption on the ground of being members of that organization and that being his only objection Mr. Cousins was refused exemption.

Other cases dealt with were: Samuel Thos. Gavin (24), farmer, Duncan, exemption extended; Herbert Pearce (26), clerk, exemption extended; Hugu Gillies (33), shipbuilder, exemption extended; John E. Marshall (34), stevedore, did not appear to support claim and exemption was refused; James Patterson (26), freight foreman, exemption refused; David Alex. Bissett (23), freight clerk, exemption refused; James J. Grant (29), stage manager, case stood over for three weeks in order to gather further information; Kenneth Irvine (24), carpenter, exemption refused subject to further medical examination.

The next date set for hearing exemption appeals is July 27.

Called to Bar.—Alexander William Staples, William Percival Marchant and James Lorne Pyke, three new barristers, were called for admission to the bar this morning and were welcomed by Mr. Justice Gregory, who wished them every success and hoped that they would do their utmost to uphold the best traditions of the profession.

Remands Case.—John Shaw appeared in the Police Court this morning charged under the Military Service Act. Accused signified his willingness to join the forces and the case was adjourned until Tuesday.

UNKNOWN SWEETHEARTS.

Many had been the fruitless efforts to find a society for the advancement of the painters' art before an exhibition of pictures was held successfully in 1758 at the Foundling Hospital.

As a result of this exhibition, which may be said to have given birth to the Royal Academy as we now know it, the Incorporated Society of Artists was founded.

In 1768 the members of this Society were ambitious to start the Royal Academy. They held their first exhibition of pictures in Pall Mall; from there they removed to rooms provided by King George III. in Somerset House, which was at that time his palace.

The Indian prince who was arrested by the beauty of a woman in a certain picture in the Academy during the season of 1842 did not realize a happy end to his romance. After feasting his eyes on the painted beauty on the wall he sought out the artist and obtained the name and address of the model who had sat for the picture.

She proved to be the daughter of a nearby tradesman. His highness the prince was so delighted at having discovered the beautiful girl's identity so easily that he paid the artist £500 for the painting. He then drove to the home of the model.

Arriving there he interviewed the astonished girl and her parents. The prince was a sparkle with precious stones, and made an imposing figure in the small shop as he gave glowing accounts of his great wealth and position before ultimately coming to the point of the matter. When at last the girl and her parents realized that he was offering a large sum of money for the purchase of the girl with whose face he had fallen in love their indignation quite equalled their appreciation of the honor conferred upon them.

His highness was in high dudgeon when at last he was made to understand that his princely estate and great wealth would not induce the beautiful English girl to join his harem.

girl, captured the heart of one Edward Fortescue when he first set eyes on it in the Royal Academy Exhibition of 1854.

The sweet face of the picture had made such a tremendous impression on the young man that he found out the address of the artist and besought him to tell him where he could find the original of the picture. This time romance was to end in tragedy. The artist—who was then poor and unknown—Informed his visitor that the original of his picture was his own sister, and that she had died suddenly only a few weeks after the last touch had been put to the painting that was destined to be all that remained of her rare beauty. Fortescue was so broken-hearted at this tragic ending to his love dreams that, haunted day and night by the face of the girl in the picture, he at last committed suicide. He was discovered dead in his rooms and to his heart was clasped the pictured face that he had loved so hopelessly.—Tit-Bits.

"FILLING THE GAP."

In his recent man-pow. speech the Prime Minister referred to the fine ex-

plot of Brigadier-General George Glas Sandman Carey, who, when there was a serious gap, "which might have let the enemy into Calais," gathered together a scratch force of "signalmen, engineers, labor battalions, odds and ends, machine-gunners—everybody he could find," rushed them into the line, held up the German masses, and thus closed the gap.

Mr. Lloyd George described this as "one of the most brilliant achievements in the history of the British Army." Brigadier-General Sandman Carey is the son of the late Rev. Tupper Carey, rector of Ebbesborne Wake, Wilts. He was educated at Winchester and entered the Artillery thirty years ago. His elder brother is Canon Carey, of York Cathedral.—Tit-Bits.

Winner of Cushion Raffle.—Mrs. Hopper, holder of ticket No. 392, was the winner of the cushion raffled by the Women's Auxiliary to the Great War Veterans' Association. The cushion was made and donated by a returned soldier and realized a good sum for the cause.

DUNLOP

Dunlop and Auto History

¶ Practically speaking the automobile has been in existence in Canada only since 1903.

¶ Years before that we made hundreds of thousands of tires for the bicycle.

¶ And since that time we have made hundreds of thousands of tires for the automobile, until the manufacture of Dunlop Auto Tires—"Traction," "Special," "Plain"—has become a big industry in itself. To you it is as important that Dunlop preceded the automobile as it is that Dunlop grew with it—became an every-day factor in this new utility of the nation.

¶ The automobile knows no better running mate—than Dunlop Tires.

LICENSING BEGINS FOR MILK VENDORS

Dairies Must All Be in Certified Grades After July 15

A large number of applications have already been made for licenses to supply milk within the boundaries of the city, in pursuance of the new by-law recently adopted for that purpose.

Dr. A. G. Price, Medical Health Officer, intends to submit a report to the Council on Monday indicating the lines upon which the by-law has so far been put into operation. It will show a disposition on the part of the vendors to respond to the establishment of a license system, though great criticism was forthcoming when the proposal was mooted on two occasions prior to the recent passage of the amendment by-law through the Council. There are, however, a number of the large interests which have not been heard from, and if they do not apply for licenses at once a reminder will be given them.

Grades of Licenses.—The license is issued after the necessary certificate under the Contagious Diseases of Animals Act has been filed from the provincial inspector. Those applications already to hand are classified in B grade, with a small sprinkling of C category, very few rural premises on the southern end of Vancouver Island qualifying in the A class. An attempt was made at one time not to recognize C grade at all, but that policy was felt to be too drastic, and accordingly C grade may receive the certificate and license.

These certificates are issued to prove examinations for the tubercular test, and are accepted as the basis of quality on which to issue the city license for which a nominal fee is charged. The effect of a license system bringing all sources of supply of milk into common regulation will probably be felt. Prices have been moving upwards by degrees during the war irrespective of licenses.

NOW IN ENGLAND

Karl Kenning and Sidney Evans Train for Commissions.

Word has just been received that Karl Kenning, whose wife and child are living here, and who left Victoria with an artillery draft, is now in England for the purpose of taking his training for a lieutenant's commission at the Gunner School at Whitley. He has been with his battery steadily for over two years.

Mrs. Karl Kenning's brother, Sidney Evans, is also at Whitley Camp, and he and Karl were fortunate enough to be quartered in the same hut. Sidney has served in France for three and a half years.

Picnic at Experimental Farm.—The Victoria West Brotherhood has arranged for a picnic in connection with a visit to the Experimental Farm at Saanichton next Saturday, leaving the city at two o'clock.

Orange Procession To-Morrow.—The local Orangemen will attend the morning service at the Centennial Methodist Church to-morrow, and the procession to the church will be headed by the band of the Army and Navy Veterans of Canada.

Is Republished.—In the current number of The Canada Gazette the whole regulations for fishing in British Columbia are republished. They were issued last February but there have been revisions since that time. The closure regulations for commercial fishing in Cowichan Bay and Saanich Arm are restored to the orders.

Block W Lane.—A letter from the City Solicitor with regard to a lane in block W, where expropriation proceedings were inaugurated but never continued, was before the City Streets Committee yesterday afternoon and tabled. The aldermen thought it was unwise to proceed with costly arbitrations at the present time.

May Require Legislation.—In advising the Council with regard to the proposed boundary extension on the northeastern side of the city the City Solicitor recommends that new legislation will be necessary to meet the situation. He will, however, confer with the Saanich solicitor when the latter returns to the city.

Asks City to Join.—The Council of Hamilton, Ontario, has invited the City Council to go on record with regard to the passage of legislation by the Dominion Government to afford insurance and protection to the dependents of Canadian soldiers and volunteers and draftees for overseas service.

A Public Demonstration

Will Be Held On

JULY 20th, as a Protest Against Victoria Being Left Out of the Ship Building Programme

A procession will be formed on Blanshard Street near Library at 6.30, and will proceed down Yates Street to Government Street; Government to Simcoe, to Beacon Hill Park, where a meeting will be held. Band will be in attendance.

ACCIDENTAL DEATH

Jury Brings in Verdict in Case of Late Joseph McNaught.

The jury which investigated the circumstances surrounding the death of Joseph McNaught, who was killed outside the gate of the Royal Provincial Jubilee Hospital yesterday morning when the motor truck he was driving and a street car came into collision, brought in a verdict of accidental death, having no rider to add to their verdict.

The evidence given at the inquiry unfolded the story substantially along the lines of the report of the accident given in yesterday's Times. Elsie Ballard, who witnessed the accident, stated that the street car approached from the West at quite a high speed and that McNaught was looking out for a street car coming from the East. Other evidence was given to show that the street car was not travelling too fast at the time. The jury was as follows: Anthony Green (Foreman), Wm. J. Smith, A. D. Winters, Walter S. Fraser, Wm. G. Bignal and Jno. C. Refree.

ORANGEMEN'S DAY

Local Organization Hears Speakers on Anniversary.

"Orangemen's Day" July 12, was celebrated by the local branch of the Loyal Orange Association of British America at the lodge rooms last night when a number of speakers recalled the Battle of the Boyne and all that it stood for. J. Wallace, county master, acted as chairman.

Rev. R. J. Robson spoke on "Orangemen's Meaning in the Present Day," and during his address he referred strongly to the present attitude of the people of Quebec toward conscription. This condition of affairs he attributed to ignorance, as fifty per cent. of the people knew nothing about conscription simply because they could not read. He did not approve of the French language being taught in Canada. "One king, one language, one people," was his motto.

The Orangemen of the city are parading to Rev. A. S. Colwell's church to-morrow and Mr. Colwell remarked that he would be glad to greet them. Dr. Lane, of Portland, made a short address on food conservation.

"PADRE" TO SPEAK

Col. the Rev. G. H. Andrews at Princess Theatre, July 25; in Aid of Red Cross.

Colonel the Rev. G. H. Andrews, who has just returned from service in France has kindly consented to deliver an address on his experiences while at the front at Princess Theatre on Thursday evening, July 25, at 8.30 in the interests of the Red Cross. Col. Andrews was on duty at one of the hospitals which were bombed by the German airmen recently, and had the honor of being received by the King to whom he gave an account of the diabolical occurrence, which resulted in such serious loss of life.

Mrs. Gertrude Huxley Green is in charge of the musical programme which will precede the lecture. In addition to a number of selections by the fifteen-piece orchestra assembled by her for the recent Red Cross entertainment, Miss Eva Hart and James Hunter will contribute vocal numbers. It is hoped and expected that there will be a full house for this interesting event.

CRAIGFLOWER SCHOOL

First School in British Columbia Mentioned in Article by J. J. Dougan.

In an interesting article on the early history of education in British Columbia, which appears in The Vancouver Sun, J. J. Dougan, of Vancouver, says: "He was not in the Province when its first school, the Craigflower, was established in 1853. It is located on Vancouver Island, not far from Victoria, and when it was built the island had been for four years a crown colony. Its first teacher was Charles Clarke who, with his wife, arrived from the 'Country' in 1854 on the Princess Royal. He taught the school and taught it well until 1859, when he returned to England. At first this pioneer school was appropriately called Maple Point. Later, a large flour mill was put up in the neighborhood, and it was called Craigflower."

"Still later, when the mill had ceased to grind, it assumed its present name, Craigflower, suggested by the many flowers which carpeted its grounds. It claims the first school bell used in the Province, taken from the ship Major Tomkins, the first mail boat to ply between Victoria and Olympia, after it had been wrecked at Manulay's Point. The building is still in use, though across the road is a modern school with a large attendance, a contrast to the original fourteen pupils of 1854."

BOARD OF TRADE

Will Not Move Quarters: Annual Fees Are Raised.

The Board of Trade will not move from the present quarters on Bastion Street but a committee has been asked to investigate and report on what improvements are necessary in the present building to bring it up to the modern standard of convenience as a business block. It was also suggested at the meeting that the city might be asked to supply better lighting facilities on Bastion Street. One speaker pictured the present situation as regards finding a way to the Board of Trade from the room from Government Street, Victoria's busy thoroughfare, as "going down a dark street, then through a dark entrance into a long dark dingy hall. Going up a rotten elevator the secretary's room was reached and it had no outside windows and in addition to sundry other things the acoustics were bad in the auditorium."

It was agreed that the fees should be raised from \$12 to \$20 per annum. In Calgary, it was stated, an entrance fee of \$10 was charged and \$25 annually thereafter.

HOME PRODUCTS FAIR

Use of Building is Granted for Exhibits at Annual Function.

For the third time, by the courtesy of the Hudson's Bay Company, the Victoria and Island Development Association has received permission to hold its Home Products Fair in the new building, Douglas Street. Stores Commissioner Burbridge, who has helped the plan on previous occasions, has again come to the Association's aid in housing the Fair exhibits. Arrangements will be taken in hand at an early date with the local branch of the B. C. Manufacturers' Association to commence planning for the fall exhibition. This will be the fourth promoted through the agency of the two associations, the first having been held in 1915 in the old Drill Hall.

The date will be late in September or early in October.

CAUGHT A SKATE

Big Fish Weighing 250 Pounds Hauled in by W. Farfitt Brothers.

The difficulty about fish stories is that they are hard to believe. When a man says that he caught a skate weighing about 250 pounds on a jigger, the first impulse is to smile. A skate of that size was caught on Thursday evening however at Gordon Head by M. and F. Farfitt.

Measurements show it to be 6 ft. 2 in. long and 4 ft. 6 in. across. The jigger hook had caught the side of the fish and made it possible to haul it in. It was lying in about fifty of water.

WILL PRESENT MEDALS

Public Meeting at Duncan Called for Monday; Hon. Dr. MacLean to Speak.

A public meeting is to be held in Duncan on Monday evening next at which Hon. Dr. MacLean, Minister of Education, will present the bronze service medals to S. O. S. boys on behalf of the Canada Food Board. All S. O. S. boys in the Cowichan District and their friends are especially invited to be present.

In addition to the address by the Minister of Education, C. M. Wright, Provincial Superintendent of the S. O. S. will speak and Mrs. Macdonald Fahey will sing.

There are about sixty S. O. S. boys in the Cowichan district and many of the parents will motor up for the occasion and show their appreciation of the work of the boys.

Lake Hill Institute.—The monthly meeting of the Lake Hill Farmers' Institute will be held in the Mission Hall on Tuesday, July 16, at 8 o'clock.

Time Limit Extended.—Owing to the inability of a number of persons to take advantage of our limited offer, we have extended the time to July 20. Glasses in our best gold-filled mountings at \$5.50. This includes a careful test of the eyes. Compound and toric lenses cost a little extra. Frank Clugston, Optician, 1241 Broad Street, Phone 5351.

Is Presumed Dead.—Pte. E. W. Hawes who left here with the 103rd Battalion and who was reported missing on August 21, 1917, is now presumed to have died, so his brother, Lance-Corpl. Frank Hawes, of Esquimalt, has been informed. Pte. Hawes was a native of London, and came to Victoria eight years ago. Before joining up he worked for the E. & N. Railway. His brother Bob left here with a draft of the inland Waterways and Docking section of the Royal Engineers, and is now a sergeant. Another brother is in London.

Wash That Itch Away

There is absolutely no sufferer from eczema who ever used the simple wash D. D. D. and did not feel immediately wonderfully calm, cool sensation that comes when the itch is taken away. This soothing wash penetrates the pores, gives instant relief from the most distressing skin diseases.

C. H. Bowes, Druggist, Victoria.

ANOTHER LIST READY

Schedule of 94 By-laws to Be Adopted by Council on Monday for Local Improvement Commissioners.

A further list of the by-laws, which have to be referred under the Private Act to the Local Improvement Commissioners will be filed with the City Council on Monday. The list comprises about ninety-four by-laws, being a supplementary one of those which indicate where the instalments of the special assessment are in arrears on more than one-half of the lots assessed. It is hoped to have these advertised in order to start another group of sittings about July 25 or July 29. Meanwhile the Commissioners have work for four sittings next week, and one on July 22, with the list of complaints recently advertised, and which have engaged their attention all the present week.

The general business of the Council should be dispatched on Monday more quickly than was the case at the last meeting, as the street railway situation will not be the subject of discussion, no date having yet been set for the conference.

Dry Cordwood

Owing to present conditions we strongly advise everyone to buy their winter supply now.

DRYDOCK WILL BE LARGEST ON ATLANTIC

Basin to Be Built at St. John to Accommodate Greatest Ships Afloat

Ottawa, July 13.—More particulars of the contract which the St. John Drydock & Shipbuilding Company has secured from the Department of Public Works for the construction of a drydock and ship repairing plant at Courtenay Bay, St. John, are available to-day. The contract calls for the construction of a drydock which will be of the first class and the largest on this side of the Atlantic. When completed it will be capable of accommodating the greatest ships of any navy in the world, or the largest mercantile ships now built or contemplated.

The length of the new dock will be 1,150 feet, and its width at the bottom 125 feet, with forty feet of water over the sill. It is expected that steel shipbuilding will form an important part of the enterprise, provided that arrangements now in contemplation are consummated, and that keels for two 10,000-ton ships will be laid within the next year or year and a half.

The contracts call for an expenditure of close to \$10,000,000.

MASSET'S APPLICATION FOR REDUCED FREIGHTS IS DISMISSED BY BOARD

Ottawa, July 13.—Several judgments dealing with applications heard by the Railway Board on its recent trip were handed down to-day. In a judgment written by Commissioner A. C. Boyce the application of the residents of Masset, Queen Charlotte Islands, for a reduction in freight rates by the Grand Trunk Pacific S. S. Company from Vancouver and Prince Rupert is dismissed.

The Board in a judgment recommends the appointment of A. B. Pottinger, District Registrar of the Vancouver district of the Supreme Court of British Columbia to make an inquiry into the demand of the city of Vancouver for an order compelling the Vancouver, Victoria & Eastern Railway and Navigation Company to pay its portion of the cost of the construction of the Hastings Street viaduct and other costs involved in connection with the proposed construction of viaducts on Pender, Keefer and Harris streets. Mr. Pottinger will report to the Board not later than October 15.

The reference to Mr. Pottinger is at the request of the city.

SHIPYARD DEMONSTRATION ARRANGED FOR SATURDAY

Huge Parade to Be Organized on July 20 to Protest Against Present State of Shipbuilding Industry; Public Bodies Will Take Part

Arrangements have been completed for the holding of a huge public demonstration under the auspices of the various labor organizations of the city for the purpose of launching an emphatic protest against the idle state of the shipyards in Victoria and with the main object of stirring up interest among the citizens with a view to clearing the atmosphere in regard to the present unsatisfactory situation as it affects the shipbuilding industry.

The arrangements for the demonstration have been placed in the hands of a committee representing the Victoria Metal Trades Council and final details for the staging of the demonstration will be discussed at a committee meeting which has been called for Thursday night at the Knights of Pythias Hall, North Park Street, to which representatives of all public bodies have been invited to be present.

Huge Parade. The demonstration will be inaugurated at 4.30 o'clock on Saturday, July 20, and will take the form of a parade of all labor organizations, members of the Retail Merchants' Association, Returned Soldiers, Next-of-Kin Association, and any other public bodies interested in the continuance of shipbuilding operations in Victoria.

The route of the parade, which will be marshalled at the corner of Blanshard and Yates Streets, will be by way of Yates Street, Government Street, and Simcoe Street to Beacon Hill Park.

Many Speakers. At Beacon Hill, speeches dealing with the shipbuilding situation as it affects Victoria will be delivered from various platforms by James Dakers, president of the Victoria Metal Trades Council; Alexander Watchman, district organizer for the Carpenters and Joiners' Union; Ben Simmonds, P. Taylor, John Carmichael, business agent for the Holtermakers, and R. J. Duggan, ex-president of the Great War Veterans' Association.

Situation Unwarranted. The labor organizations take the attitude that the languishing state of the shipbuilding here is unwarranted in view of the fact that tonnage is so urgently needed by the Entente nations, and the object of the demonstration is to get at the bottom of things and find out why additional shipbuilding contracts are not being placed with local yards. The whole situation will be comprehensively reviewed by the speakers and comparisons made with respect to shipbuilding operations to-day and a year ago.

The Climax. The climax was reached about by the almost wholesale discharge of workmen from the local wooden shipbuilding plants as the present programme is being brought to a close. Of the nine wooden steamships placed with local plants about a year ago, all are completed with the exception of three vessels, and these are practically ready to enter the water. Hundreds of men have been thrown out of employment and many further contracts are secured the shipyards will be closed down.

It is realized by the business interests here that the shipbuilding industry is the mainstay of the city, and realizing this they propose to co-operate with the labor organizations in clearing up the existing unsatisfactory situation and putting the shipbuilding industry on a stable basis.

CAULKERS' STRIKE

Settlement of Trouble is Now Expected Early Next Week.

Although certain complications have arisen in connection with the anticipated settlement of the caulkers' dispute, it is figured that an adjustment of the trouble will be reached by the beginning of the week and that the caulkers is scheduled for this afternoon. Subsequent to the conference held here yesterday, W. L. Macdonald, Federal adjuster of shipyard disputes, returned to the mainland.

Senator Gordon Robertson is in touch with the situation and developments are expected immediately word is received from Ottawa.

BARNEY JOHNSON TO ALASKA.

Lieut.-Commander Barney L. Johnson, D. S. O., R. N. R., former master of the G. T. P. steamship Prince Rupert, is making a round trip tour to Alaska aboard his former command, Lieut.-Com. Johnson entered the British submarine service early in the war and is now home on leave of absence. He is taking his family with him to Alaska.

Passports Correctly Prepared—W. H. Price, Notary Public, next Bank Montreal.

C. P. R. CHIEF ENGINEER

J. M. R. FAIRBAIRN who has been appointed to succeed J. G. Sullivan, retired.

HOW ENEMY SUBMARINE WAS SENT TO BOTTOM

Liverpool Marine Engineer, Now Stationed Here, Was in at the Finish

An exciting incident concerning the destruction of an enemy "tin fish" off the Welsh coast is told by a Liverpool marine engineer now in Victoria. "In relating his experience to The Times," he said: "On February 23 I left Alexandria as a passenger on board the S. S. Austria, my ship the Bermudian having been sunk on January 20."

"We sailed along the north coast of Africa to Bizerta, where we stopped for one day and left the next in convoy. There were nine ships in all, and we had gun practice, five round each, at a target two miles away, and we had a dandy of a four-inch gun. Well, the convoy was attacked one morning and they got the Clan McPhee, and she went down in about five minutes and fourteen of the engine-room staff with her. A French trawler picked up forty-five of the survivors and she in turn was bumped at 4 a.m. next day, so I suppose all hands went with her."

"We sailed along after that, always in touch with short stations by wireless, and finally reached Gibraltar, where we were delayed seven days."

Fun Started.

"We left there with a dead calm and smooth sea," he continued, "just the ideal weather for the 'tin fish,' but nothing startling occurred until we arrived in the Channel, where the real fun started. It was on Sunday, March 24, at 6.30 a.m. 'Carnarvon' lightship and Holyhead that we got a wireless to say the divers were about. The first thing we knew they bumped a ship named the Spinnaker, hitting her in No. 1 hold, but she was laden with Egyptian cotton, tightly pressed, so it saved her and she managed to reach Liverpool."

"After that the diver came for us, but we manoeuvred and got a shot at him over the starboard bow, but we missed and he dived and got under another ship named the Pelowren, which tried to ram her, but missed again."

Three Shots.

"Then he came up astern and we got three shots at him and a good many more. As I was watching the whole performance, anyhow, either it, or another came up 800 yards astern, and then the band struck us. We got two shots at him and the second one got home. I saw the shell explode, so there was no doubt about the one anyhow, for after a few minutes up came the smoke or vapor from the oils for a stretch of about 140 feet."

ALBERTA POLICE CATCH BOOTLEGGERS

Lethbridge, July 12.—Seizure of over \$1,400 worth of liquor being shipped in from Montana for the Lethbridge Stamped week by bootleggers was made at Warner, the provincial police, according to a courier who drove it across the border was fined \$100 and costs and the rancher who harbored it was fined \$200 and costs.

ARCHBISHOP WAS ARRESTED IN MEXICO

El Paso, Tex., July 13.—Archbishop Francis Orozco y Jimenez, of Guadalajara, Mex., was arrested by military authorities at Lagos, Jalisco, July 6, and is now being held as a prisoner, according to a courier who reached here to-day with a request for Bishop A. J. Shuler to assist in obtaining the archbishop's release.

MOTHERS' PENSIONS URGED IN ONTARIO

Toronto, July 13.—Efforts are being made by the Social Service Commission to impress upon the Ontario Government the wisdom of undertaking a scheme of mothers' pensions for those who are unable to support their children and at least partially neglect the welfare of their children.

Under such a scheme it is suggested that the pensions should be paid monthly at \$4.00 a month, with \$3 a month allowed for each child. It is stated that on the \$4.00-a-month scale, with \$3 a month for each child, the cost of the scheme to the Government would be \$1,500,000. Part of this sum would be offset by the reduced cost of maintaining public institutions to which children could be sent while the mothers worked.

KAHANAMOKU MAKES ONE MORE WORLD'S RECORD

Chicago, July 13.—Duke Kahanamoku, Hawaiian swimmer, to-day made a new record for sixty yards in the Chicago Athletic Association tank, covering the distance with the crawl stroke in twenty-five one-fifth seconds. The previous mark was thirty seconds, made by C. M. Daniels in 1917. The Chicago Athletic Association, finished second in twenty-nine three-fifths seconds.

WILSON'S VETO UPHELD.

Washington, July 13.—The House to-day sustained President Wilson's veto of the agricultural bill. A motion to pass the measure over the veto was defeated 173 to 127.

THOROUGHLY THRESHED OUT.

During the dinner-hour at a Tyne-side house a number of shop-stewards were having a heated argument about certain clauses in the manpower bill.

A deadlock seemed to have been reached when one of the disputants, turning to a mate who had remained silent during the whole debate, remarked:

"We've Tom, what's yer opinion? Divent ye think that Ireland should be included in the bill?"

"Aa's not gamin' to say," replied Tom, reluctantly. "As I thressed the matter out afore wi' 'Dicky Dunn'."

"An' what did ye arrive at?" eagerly inquired the other, hoping to entice Tom into the fray.

"We've," said Tom, solemnly, "decided to leave it to the Government. I arrived at the doctor's slightly damaged, an' aa got bound over to keep the peace."

Remove the white stains on tables caused by hot dishes by rubbing with the wood with a soft rag aprita of camphor.

New Worlds to Conquer

From The Christian Science Monitor.

There are more ways than one of getting back the bread which you cast upon the waters. The United Kingdom found this when, having conquered South Africa, it made it into a free dominion, with the result that that dominion is standing staunchly as a unit to the Empire to-day, whilst there are no more trusted statesmen or soldiers in the Empire's ranks than Louis Botha and Jan Smuts. The United States discovered this when it freed Cuba, with the result that whilst German propaganda is rampant in Spain to-day, German propaganda is a negligible quantity in Cuba. And now the Wilhelmstrasse in Berlin is discovering it, as reports come in from all over the world of nations joining the great alliance against Kultur and of growing distrust and revolution within the confines of the Central Alliance itself.

The news, for instance, which, in spite of the severest censorship, is filtering through from Vienna proves how entirely justified is Professor Masaryk's picture of the cauldron of revolution labeled Bohemia. The whole of the Jugo-Slav provinces of the Austro-Hungarian Empire are, as a matter of fact, just now in a state of ferment, whilst it is quite clear that there is a growing unrest amongst the proletariat, even of Germany itself. The fact is that the German Government, in spite of its extraordinary use of suggestion, has been blind enough not to see that you cannot arbitrarily circumscribe the human mind with regulations, however drastic. And therefore that when you pour out libations of sedition and propaganda in Italy and India, in Egypt and Ireland, when you pour out libations of sedition and propaganda in France and Bernstorff in the United States, when you inculcate the morality of the "Spuria Verset" order in the Argentine and Bolshevism in Russia, you are inflaming the tinder, wadding through mental channels, to a growing unrest amongst the proletariat, even of Germany itself.

Keep up your Shooting—it pays!

BUSY men who are sensible always remember that a certain amount of relaxation is necessary in order to keep fit. To four out of five no sport or relaxation appeals so strongly as the "shooting game"

VICTORIA OF THE NORTHWEST WORLD

VICTORIA FAME IS SWEEPING ALL OVER THIS OLD CONTINENT

Kahanamoku's Visit Putting City on Aquatic Map Through American Papers

DUKE AND PALS BUSY BOOSTING FAIR CITY

Athletes are making this Smokeless Settlement known in places where sport is the chief industry and where the Spanish Observatory and the Settlers' Rights question are no more known than the whereabouts of Mr. Nicholas Romanoff.

The most sanguine expectations with regard to the results of Kahanamoku's visit have been more than justified in the past few weeks by the press notices and local splash artists are being given in the papers of Western America. The famous swimmers have evidently been talking themselves hoarse about the local swimming fraternity, and the possibilities of this town as an aquatic centre. They had a rushing time when they were here and they haven't forgotten it. Owen Merrick, the manager of the tour, in a letter to The Times sporting editor says: "You certainly have some fine people in Victoria, and wherever we go we mention the fact that your city is right on the aquatic map and will stay there." This is the kind of stuff that tends to wake a city from the sudden depression following a financial jag.

Swimming Centre.
The "Frisco Bulletin, one of the biggest of the Golden Gate papers, devotes some considerable space to a discussion of Victoria as a swimming centre written by the pen of the Duke's energetic manager, who is fairly bubbling over with good things to say about what he saw here.

The dispatches describing the meet where Kahanamoku splashed went all over the continent. This means advertising that cannot be bought for love, money or street car tickets.

Why They Talked.
Kahanamoku and his fellow aquatic speed demons liked Victoria and Victorians. They couldn't help it. Because they were given a whale of a time.

Not only did they like the climate, not only did they marvel at the scenery, not only were they astounded at the telescope, but they thought Victoria was a real live swimming centre. The way the gala was pulled off amazed them, and they prophesied a rosy future in water churning activities.

This is all very well and it's easy to blow one's own megaphone, but as the sage saith, it takes money to buy ear tickets and advertising.
To review in brief the publicity Victoria was given through the Kahanamoku gala: The papers all over the continent, as stated, published the reports, under a Victoria date line, that the Duke and his pals had splashed here. That was hot stuff. The Vancouver World, though a publication of a city wherein the Hawaiians did not perform had to hand it to Victoria in a short notice to the effect that the Duke had passed through Vancouver

on his way East. Some twelve lines of type appeared and one and a half of those twelve lines were devoted to the fact that the great swimmers were delighted with the reception in Victoria. Seeing that the boys did not test the Terminal City waters this was a compliment, and a very high one, to the calibre of local enterprise. The Vancouver Province gave a hearty lead to an account of the Duke's activities and Victoria's praises as sung by the famous mermen were there in black and white, which was still hotter stuff.

He Kept on Talking.
As the party travelled across the continent Owen Merrick, as the poorest swimmer and the best talker, told everyone he met and many he didn't meet about the climate and the hospitality of Victoria, etc., etc. In the letter to the sporting editor referred to he tells about his efforts in this regard and expresses the idea that Andrey Griffin is a coming star and that local divers ought to be the best in America! That reads like a Berlin dispatch but it comes from a man who knows swimming from racing dives to shower baths.

Need Big Tank.
He says: "At Banff, Winnipeg, Duluth and Milwaukee we have been giving a big boost for Victoria, and the boys are very enthusiastic about the place. You certainly have some fine people in Victoria, and I will watch with interest your progress in aquatics. You need a big tank there that will seat 5,000 people and you ought to be able to pack it. Victoria has the interest and the boys are all anxious to return there. Between you and I, the swimming in Victoria is certain to have a boom and wherever we go we mention the fact that Victoria is right on the aquatic map and will stay there."

What 'Frisco Said.
Comment on this letter is not necessary but its full significance is hard to realize.
But there is another even more glorious chapter to this happy story. The "Frisco Bulletin" delivers itself as follows in its issue of July 6: Owen Merrick, at the head of the Hawaiian swimming tour has written The Bulletin of the success which has crowned the swimmers' efforts in the following letter: "Victoria, B. C. is some swimming centre. They have one girl, Audrey Griffin, who ought to be a comer if she is given more chance."
"W. H. Davies, the man who ran the meet here, is a real live wire. You can go as far as you like. The Victoria bunch were certainly there with the hospitality. And they surely showed the boys a good time. They staged the meet three miles out in the country and they had to stand on the banks. Five thousand people were there. They are surely interested in swimming. Can't help boosting Victoria."

Still More Publicity.
The value to Victoria, not just to Victoria athletes but to Victoria as a city, is vast indeed. It will do more good than ten thousand circulars because it will be read by Bulletin subscribers who will finally find that there is a city on this island and a city that does things.
The recital of Victoria's publicity triumph does not even end here. Mr. Merrick will write more letters and he will keep on talking until he gets back to his own paper in Honolulu. And then Victoria will be featured in the sport columns there. Featured in a big way, too.

Victoria is becoming famous. Which won't do any harm. Kahanamoku's gala did more than disturb the waters of the Gorge.

One-third of the world's 713,000 miles of railways are owned or controlled by the Governments of the countries in which they operate.

COBB BLAZING TRAIL FOR BATTING HONORS

Georgian Is Making Things Hum With Stick; Baker Got Hundredth Hit This Week

Chicago, July 12.—Ty Cobb, batting champion of the American League, after getting away to a late start, is blazing the trail for the 1918 batting honors.

Averages released give the Detroit star a mark of .371, as against .355 for George Sisler, of St. Louis, the leader a week ago. Sisler, however, still leads the Georgian in base-stealing with 30 against 25.

Frank Baker, of New York, added interest to the batting situation in the American League by driving out his hundredth hit during this week. "Babe" Ruth, of Boston, however, disappointed his admirers by failing to bag another homer. His record of 11, however, remains out of danger.

Packinbaugh, of New York, and McInnis, of Boston, are giving Shean, also of Boston, a race for honors in sacrifice hitting. Shean having one point lead with a total of 22. New York is showing the way in team batting with .267 and Boston in team fielding with .370.

Leading batters for thirty-five or more games are: Cobb, Detroit, .371; Sisler, St. Louis, .355; Baker, New York, .340; Burns, Philadelphia, .338; Pipp, New York, .317; Milan, Washington, .314; Walker, Philadelphia, .311; Hooper, Boston, .306; Ruth, Boston, .302; Murphy, Chicago, .302.

Helme Groh, of Cincinnati infielder, pushed ahead to maintain the batting lead in the National League, averages including games played Wednesday giving him a mark of .352, or two points above his average of a week ago. J. C. Smith, of Boston, drove Merkle, of Chicago, out of second place with .356.

Hollock, the twenty-one-year-old sensation with Chicago, advanced from eighth to fifth place in the list of leaders with .319.
Max Carey, of Pittsburgh, the leading base-stealer, has a margin of 10 thefts over George Burns, of the Giants, his nearest rival. Carey's total is thirty-six. Burns, however, remains high in scoring, having registered fifty times in seventy-three games. Roush, of Cincinnati broke the tie for honors in sacrifice hitting, bringing his total up to eighteen.

Chicago and Cincinnati are on even terms in club batting with .267, while New York has one point lead over Chicago in fielding with .371.

Leading batters for thirty-five games or more are: Groh, Cincinnati, .352; J. C. Smith, Boston, .336; Markle, Chicago, .325; Daubert, Brooklyn, .320; Hollock, Chicago, .310; Packard, Chicago, .309; Mack, Chicago, .304; Roush, Cincinnati, .302; L. Margie, Cincinnati, .299; Johnson, Brooklyn, .298.

LACROSSE PRACTICE.
In preparation for the Mann Cup lacrosse contest with Vancouver to be played next Saturday all Victoria exponents of the national game are urged to practice at the Royal Athletic Park at 10 o'clock to-morrow morning. The following are especially asked to be on hand: Medrick, Humphrey, Sweeten, Clegg, Noel, Cotton, Ross, Humber, Nute, Mitchell, Baker, Feedham, McInnes Bros., Alexander, White and Pascoe.

Important business will be discussed at the conclusion of the practice.

London gets weekly 4,000,000 boxes of matches.

TENNIS TOURNAMENT STARTED YESTERDAY

Clever Handicapping Produces Hard-Fought Battles About the Nets

That owing to the war or any other circumstance the quality of local tennis talent has in no way declined was demonstrated in the first matches of the Victoria Lawn Tennis Club's Annual Handicap Tournament played yesterday. After several postponements owing to the weather and the vagaries of the car service, the competition at length got under way, and the recent wildness that resulted showed that the delay had not interfered with the prowess of the net experts.

On account of the clever handicapping arranged by the officials of the club most of the matches went into three sets, and some really exciting play was seen. Some of the rallies proved so intensely interesting that many of the other players, though fully occupied with their own troubles on the courts, paused to watch. In the hard-fought contest between Mrs. Elgie and Miss Bradford on one side of the net and Mrs. Lowder and Miss Ross on the other, nearly everyone on the grounds stood about and held their breath. In the second set of this battle the brand of play waxed brilliant, but the first two ladies mentioned emerged victorious on account of their superior steadiness that nothing seemed able to mar. The contest between Miss Rickaby and Springett and Miss Taylor and Hendry also produced some fast play.

It is hoped that the tournament will be concluded a week from to-day, and with this end in view all contestants are requested to be on the grounds at the scheduled time in order that there may be no more delay than is absolutely necessary.

The matches yesterday resulted as follows:
Cleeri beat Cove, 6-3, 6-6, 6-1.
Cloves beat Neame, 6-2, 6-2.
Neame and Miss Idens beat Mrs. Cove and Miss Milliken, 6-3, 6-0.
Miss Harris and Roney beat Miss Gordon and Beckwith, 7-5, 6-1, 6-2.
Miss Rickaby and Springett beat Miss Taylor and Hendry, 6-4, 3-6, 6-0.
Proctor beat Grant, 6-2, 6-4.
Miss Markham and Cove beat Mrs. and Miss Martha Hodgins.
Roney and Cloves beat Edwards and White, 2-6, 6-2, 6-3.
Mrs. Elgie and Miss Bradford beat Mrs. Lowder and Miss Ross, 7-5, 10-12, 6-4.

ATHLETIC PROWESS IS SEEN IN TRACK MEET

Victoria Preparatory School Holds First Annual Sporting Competition

With ideal weather and excellent athletic competition being evinced by the youthful competitors, the first annual field sports held at the Oak Bay athletic grounds by the Victoria Preparatory School yesterday achieved success that augurs well for future meets. Many parents and friends were present to witness the various races, and the prizes were presented by Col. W. H. Cunliffe, who made a few appropriate remarks concerning the value of athletics. Ryres I. carried off the senior championship cup, presented by T. Ashley Sparks. The intermediate championship trophy, presented by John C. Sparks, was won by Wilkinson II. The junior championship award, presented by W. J. Sparks, was won by Wilson. When about half of the athletic programme had been concluded the school troop gave an excellent exhibition of scout drill under Scoutmaster Hughes. Afternoon tea was then served. The prizes for the athletic events were won as follows:

Senior championship, 16 and under, 100 yards—1, Ryres I.; 2, Lee; 3, Blacklock.
220 yards—1, Ryres; 2, Blacklock.
440 yards—1, Blacklock; 2, Ryres; 3, Miller.
880 yards—1, Blacklock; 2, Ryres; 3, Miller.
High jump—1, Todsen; 2, Lee.
Long jump—1, Ryres; 2, Blacklock; 3, Lee.
Throwing cricket ball—1, Todsen.
Intermediate championship, 13 and under, 100 yards—1, Wilkinson II.; 2, Reed; 3, Woolsey.
220 yards—1, Wilkinson II.; 2, Woolsey; 3, Lange I.
440 yards—1, Wilkinson II.; 2, Lange I.; 3, Woolsey.
880 yards—1, Wilkinson II.; 2, Lange I.; 3, Taylor.
High jump—1, Wilkinson II.; 2, Woolsey.

Long jump—1, Woolsey; 2, Aldridge; 3, Lange I.
Throwing cricket ball—1, Wilkinson II.
Junior championship, 10 and under, 75 yards—1, Oler I.; 2, Mayne; 3, Morris I.
100 yards—1, Wilson; 2, Mayne; 3, Fraser.
150 yards—1, Wilson; 2, Mayne; 3, Johnston I.
Throwing cricket ball—Morris I.
100 yards, boys under 8—1, Terry; 2, Oler II.; 3, Milche II.
Consolation, 10 and under—Carter, Intermediate—Hagar I.
Junior—Lange II.
Special prizes as follows were presented by Col. Cunliffe for school work:

Head of school, presented by Col. Cunliffe—Wilkinson I.
Geography, presented by Rev. H. S. T. Payne—Murray I.
Good fellowship, presented by Mr. E. Mayne—Ryres I.

CLUB TO HOLD SHOOT TO-MORROW MORNING

Welcome is extended by the Esquimalt Gun Club to all interested in the subtle art of smashing clay pigeons to attend the club shoot at the grounds on Admirals Road to-morrow morning at 10 o'clock. Ammunition will be procurable on the ground. In the near future a shoot between the Victoria Gun Club and the Esquimalt organization is expected to take place.

COAST LEAGUE ORDERS.
Los Angeles, July 12.—Directors and officials of the Pacific Coast Baseball League voted to-night to close the present season with the games scheduled for Sunday in various cities of the circuit. This announcement was made following a meeting here.

GREAT INTEREST IS TAKEN IN BIG RACE

That the public at large as well as the swimming fraternity are interested in The Times long distance swim from the Causeway to the Gorge was evidenced by the number of spectators who assembled to see the start, by the long list of entries and by the fact that many of the most prominent citizens in the community were on hand to witness the competition. Though the entries closed on Wednesday evening, several have come in since that time and a large number of splash artists dived in from the dock at the Causeway this afternoon when the word was given. Indeed the race is evidently considered in the light of one of the biggest athletic events in the annals of local athletics in the year 1918.

GARRISON COMMENCES SERIES BY TAKING A ROW OF ELK SCALPS

Military Pill Tossers Start Race for Goldsmith Trophy With Cruel Massacre

With sublime disregard for game regulations the Garrison baseball team last evening turned its biggest guns upon the defenceless Elks, created havoc on the diamond to the tune of eighteen to four, and so got away with a flying start in the race for the Goldsmith Cup. For five innings the large crowd of spectators were treated to a nifty and smooth exhibition of the American game until the military men with martial precision sailed in and walloped the apple without mercy.

For five innings and no more things seemed all O. K. Balcorn, the military hurler, was doing wonders on the mound, pitching almost air tight ball that he had the Elks wondering if it were a baseball or a high power shell. As he was shooting across the plate Bob White behind the bat, however, didn't seem to find any trouble holding on to the sizzling of his partner's offering. On the other hand, Ervyn the Elks box artist, had discovered the most expeditious way of holding down the Garrison and, aided by Genge, who did the catching, he gave the boys from Esquimalt a merry time.

That Tragic Fifth.
Thus it continued until the fifth. It was in this inning that the doom of the Elks, indeed their absolute extinction, as far as the game is concerned, became inevitable. Nothing could save them from shell shock at the hands of the Garrison pill-tossers, who operated their guns in a devastating fashion. When all was going smoothly enough suddenly Fittens trode up to the plate and with a mighty swat massacred the apple for a homer, which started the soldiers on their scarping expedition in earnest. From then on there was nothing to it! It was a most touching affair.

The result of this game is no augury for the whole series, and the Elks are not in any way discouraged by last night's riot. However, the game showed beyond a doubt that the newest entrants into the league are foom to be reckoned with and ones who with their big guns, will make things hum on the local diamond.

The next game of the series is slated to take place on Monday evening, when the Clubs will mix with the Elks at the Royal Athletic Park. The diamond will be fixed up for the game and some first-class pill-tossing is expected. Next Wednesday an aggregation from New Westminster will invade this city in connection with the "Citizens' Excursion," when the All-Stars of this city will have an opportunity of showing their prowess against the pill-tossing element of the mainland.

The score by innings of last night's massacre was as follows:
1 2 3 4 5 6 7 8 9
Garrison..... 1 0 0 0 8 1 2 0 6—18
Elks..... 0 0 1 1 2 0 0 0 4—4
Umpire, George Smith, Batteries, Garrison—Balcorn, McKay, Pitts and White. Elks—Brown, Gens, Burnett and Spence.

The Theatres

TO-DAY'S AMUSEMENTS
Pantages—Vaudeville.
Variety—Sessue Hayakawa in "The White Man's Law."
Columbia—Hilda Moore in "The Second Mrs. Tanqueray."
Dominion—Madge Kennedy in "The Service Star."
Romano—Madge Evans in "Gates of Gladness."
Royal Victoria—Billie Burke in "Let's Get a Divorce."

ROYAL VICTORIA

For the last time to-night Billie Burke, the dainty star, will be seen at the Royal Victoria Theatre in "Let's Get a Divorce." Miss Burke is a comedienne of exceptional ability, and her magnetism and charm have gained for her an immense clientele of admirers in every city in which motion pictures are shown. Her portrayal of the romantic

convent-bred girl in this photograph is at once fascinating and artistic, and it is acclaimed to be one of her best. There are numerous complications in which are blended comedy, pathos and heart appealing moments. It is a picture that all men and women will relish, because it is filled with the spirit of romance and runs the gamut of the human emotions. The picture is unusually well produced under the direction of Charles Giblyn, and in Miss Burke's support appear an exceptional list of players.

DOMINION

One of the thrilling scenes which differentiates Madge Kennedy's newest Goldwyn Picture, "The Service Star," from any other dramatic production of to-day is a quietly humorous one showing the activities of a Ladies' Loyalty League, composed of young women who have sweethearts, brothers or husbands either fighting for America at the front or awaiting at camps the call to France.

The members are seen visiting homes of mothers who have given their sons for the cause, persuading them that the war will soon be over, and that their loved ones will come back better and stronger men for having made the sacrifice. To a town of such patriotic women comes Marilyn March (Madge Kennedy) to accept a position as assistant librarian. A plain girl, Marilyn, bespectacled, utterly without style and with her hair combed straight back and tied tight. She makes her home with an aunt and her cousin Gwendolyn, who is a member of the Loyalty League.

But with all her plainness, Marilyn is intensely patriotic. She is eager to join the league, but having no brother, much less a sweetheart or a husband, there is no way she can become a member.

The picture is being shown to-night at the Dominion.

COLUMBIA

The English film production adapting the famous problem play, "The Second Mrs. Tanqueray," to the screen will be shown at the Columbia Theatre for the last time to-day. The screen version is almost as sensational as was the play.

ROMANO

The new drama in which Madge Evans, "the world's kiddie star," will be seen at the Romano Theatre to-day, is a most striking attraction. The offering is novel and the manner of presentation is delightful. The offering bears the pleasing title of "Gates of Gladness." The scenic effects are superb, the supporting company all that could be desired.

VARIETY

The little known city of Sierra Leone on the west coast of Africa is the scene of "The White Man's Law," which will star the noted Paramount oriental actor Sessue Hayakawa, with the support of Jack Holt, Florence Vidor and other competent players. Marion Fairfax and John Browne wrote the story and the former the scenario, while James Young directed the production. In this unusual locale a gripping story is unfolded, a story that brims with incident and exotic scenes. "The White Man's Law" will be at the Variety Theatre to-night. A superb presentation is assured.

REVOLUTION COMING IN PUBLIC AFFAIRS

Mayor Hardie, of Lethbridge, Describes Commission Govt. to Interested Audience

The advantages and disadvantages of the commission form of municipal government as experienced during his five years as mayor in the city of Lethbridge were lucidly explained by Mayor W. D. L. Hardie to an interested audience of some two hundred people in the Knights of Pythias Hall last night.

The chair was taken by Premier Oliver, and at the close of the address a vote of thanks to the speaker was moved by W. J. Bowser, K. C., and seconded by Mayor Todd.

The speaker, while admitting the immediate advantages of the commission form of government over the old system of a mayor and council expressed his opinion that the managerial system was even better. In Lethbridge three men were at the head of the city's affairs, he holding the position of Commissioner of Finance and Public Safety, and though receiving the title of mayor the appellation was merely an office title for ceremonial purposes. In this office he supervised those particular departments which came under the heading of public safety and not one dollar was paid out for any civic matter except over his signature.

The second commissioner had charge of public works, and was head of all matters pertaining to the engineering department, including the city's water mains, sewerage system, street cleaning, etc. The third commissioner, and charge of public utilities, and supervised the street railway system, electric light plant and other utilities. For legislative purposes the three commissioners combined, and neither could interfere with the others except in council, and then only by a majority ruling.

Power of the People. The people had the use of the recall, the initiative and the referendum in connection with the commission form of government thus giving them power over the commission. In Lethbridge the recall had to be signed by at least fifteen per cent. of the electorate. Mayor Hardie expressed his dislike of the recall system, as it brought politics largely into civic affairs.

The power of the initiative gave the public a lever by which the commission was automatically put out of office, if the people failed to pass a by-law which had been advocated by the Government. The referendum system entailed frequent use of the plebiscite, for if the commission framed a by-law of whose passing they were doubtful they placed it to a plebiscite. Mayor Hardie explained that any money by-law framed in Lethbridge was first submitted to the Board of Public Utilities of Alberta which it could be submitted to the people, and as this board was composed of experts the system had been found to be a safeguard against the haphazard spending which was crippling so many municipalities at the present time. Through this system nearly \$750,000 had been saved to Lethbridge during his five years in office.

The greatest advantage of the "commission" form of government was that each department was directly responsible to the people, continued Mr. Hardie, and the recall placed in the hands of the people the power to put out of office any commissioner failing to give satisfaction. This system necessitated that each of the commissioners be a capable man, possessed of business acumen, combined with tact. Lethbridge had copied its form of government from Des Moines, Iowa, and as the latter city, the public had expressed themselves, unmistakably against reverting to the old form of municipal government, but many of the citizens were in favor of taking a step forward and establishing the managerial system.

Managerial System. Mayor Hardie outlined the "managerial system" of municipal government, such as was in vogue in Dayton, Ohio. Five commissioners were appointed by a salary to form the council, but were required by charter to appoint a capable manager who had charge of all estimates and all operations of the city. His jurisdiction was similar to that of the managing director of a business company, and his rulings could only be altered by a two-thirds majority of the council. No initiative or recall was used in connection with the managerial form of government. The manager could only be dismissed in the event of his failing to give satisfaction in his work, while the commissioners were elected for a certain period and remained in office for that time. Such a system inevitably resulted in the more careful choosing of the men who had charge of the city's affairs than was usual in connection with the ordinary municipal elections.

Returned Soldiers. The returned soldier, declared Mayor Hardie, would exercise a tremendous influence on civic life. He came back with his ideas broadened, with added experience, and usually with more weight than before he went away to fight his country's battles.

The influence of the soldiers on the wives, mothers, sisters and sweethearts would change the whole civic fabric and bring about a revolution in civic life. They would expect better housing conditions, better health conditions, and a reform of all that affects the working man, continued the speaker. It was only right and just that the man who had fought should enjoy some of the privileges for which he had been fighting, and Mayor Hardie forecasted a series of commission governments all through Canada as the result of the returned soldiers' determination to improve the lot of the working classes.

Double Standard Wrong. In his opening remarks the speaker made reference to the underlying elements which affected municipal life. He declared that the doctrine of Paulinism had one of the most adverse influences on the race, and laid the blame for its bad influence at the door of the modern church, which had misconstrued the doctrine of Paul. The doctrine with its theory that the women of the race were inferior to the men, despite the fact that it was the women who produced the manhood of the race, was largely responsible for the Mary Magdalenes of to-day who would increase until the whole social system was menaced. He thought the time had arrived when the Church should put a new construction upon this doctrine.

The double standard of morals was denounced by the speaker in no measured terms. "You will not see Mary Magdalene sitting at a bishop's table, neither do you see a non-Conformist minister walking down the street with one of these women on his arm. It would jeopardize their position to be seen in such company, yet we frequently see the rouse in the company of some

of the best women of the land." The moral standard should be elevated and should be equal for men and women, if reforms were to be established in civic life. A government could never be any better than the people it represented, and upon the social conditions of its people a government stood or fell, he declared.

Bad Economic Conditions.

The present economic conditions were the worst that were ever devised, continued the speaker. Extreme wealth and extreme poverty was the result of the present conditions, and neither was good and neither healthy, whereas the two extremes could be as easily regulated as the commonplace things of life. If the war accomplished good results in the alleviation of the evils caused by these two extremes, then the sacrifices in life and money would not have been in vain. Mayor Hardie declared that had the money which had been expended on the war been used for the alleviation of economic conditions, the world would have been free from poverty for ten thousand years. "We seem not to be civilized. What barbarians we must be to blow away so much wealth in powder and smoke. If we could only be really civilized and Christian how much good we could accomplish."

Women in Politics.

The influence of women upon politics was taken up by the speaker, who pointed out that the women were at the stage when they were experimenting in public life, and so were liable to make more mistakes than the men who had enjoyed all the privileges of citizenship for so long. Women sometimes failed to realize the difficulties of civic life. It was a fallacy, he said, to strive along one particular line in municipal government, as all classes and all standards must be taken into consideration. He did not believe in the passing of by-laws which were aimed at the under-dog, who had never had a square deal, and the worst fault of many municipalities was the tendency to create criminals by the passing of by-laws. He appealed to the women to exercise moderation in starting their political career, and advised them to consult the men who had the advantage of long experience in such matters.

OUR INCOMPARABLE EMBASSY.

The British Embassy in Paris is one of the most remarkable buildings in the French capital.

In a city which is destitute of parks it has a large garden, where the grass is kept green by a hidden stream which passes beneath the house on its way to the Seine.

The house was occupied by Napoleon's sister, and it was the good judgment of the Duke of Wellington that secured it for the British Government. He bought it for a mere song after the Battle of Waterloo.

It contains a great deal of quite priceless furniture and works of art, including some fine Gobelin tapestry and many fine Sevres pieces. It is nearly next door to the house of the French President himself. Since the American Ambassador gave up Doughty House in London there has been no Embassy comparable to it in Europe.—TIT-BITS.

"Second-hand book catalogues all my life have been my favorite reading."—Mr. A. Birrell.

It is further pointed out by Mr. Kingham that this order, like all the orders of the Canada Food Board, carries with it penalties for infringement, in the way of fines from \$100 to \$1,000, or three months' imprisonment, or both fine and imprisonment. These penalties are automatically attached to all orders relating to foodstuffs and authority of an Order-in-Council dated June 22, and the Board has every assurance that the various municipalities purpose giving their strongest co-operation and assistance in seeing that the regulations in this respect are carried out to the letter.

Mr. Kingham expressed himself as highly pleased at the action taken by the Bread and Cake Manufacturers' Association in this matter in view of the fact, as pointed out by representatives of that body, that such a ruling would reduce the consumption of their output of bread by at least ten per cent, this having proved to be the case in Great Britain where the twelve-hour rule has been operative for some time past.

"THE ANGELIC RUFFIAN."

A colonel's war-time problem was expressed in these terms in the advertising columns of a London newspaper.

Colonel, young wife, and small ruffian of angelic exterior, aged four, offer home, board and £30 a year to a young lady who will undertake to install into said ruffian the elements of a Bayard, develop a naturally strong affection, and help said wife in house and domestic duties. Family, less colonel, presently situated in the district. Good parentage and upbringing, and a cherry disposition main essentials. No pessimists.—Write.

MAY EXTEND ORDER TO WHOLE PROVINCE

Situation With Regard to Bakers' Bread Explained by Chairman

Chairman Kingham, of the Provincial Committee of the Canada Food Board, announces that the Board has issued an order to the effect that bread which has not been made at least twelve hours shall be sold or offered or exposed for sale in the municipalities of Vancouver and New Westminster.

Mr. Kingham states that this order has been put into effect on the recommendation of the Provincial Committee at the request of an agreement arrived at among the members of the Bread and Cake Manufacturers' Association of British Columbia who manufacture a greater amount of bread made in those municipalities. As, however, there is some doubt felt as to the results attending such a course of action the order has at present been made applicable only to the municipalities mentioned, though, should it appear advisable to the trade and consumers as well, the order will no doubt be extended to cover the whole province.

It is further pointed out by Mr

SALE BY TENDER

House Property—Estate of J. M. Burnes, Deceased.

Under instructions from the Executor of the above-named Estate, the undersigned Solicitors call for tenders for the purchase of the house and lot at 469 Kingston Street, Victoria, B. C., more particularly described as follows: Lot 23 of Lot 917 and the East 20 ft. of Lot 918, Victoria City lots.

A purchaser of this property must be prepared to pay for the equity in cash and to provide in addition \$2,225 to cover the mortgage charge thereon and taxes. This property is well located, close to Parliament Buildings and Inner Wharf. All bids must be in the hands of the undersigned by Saturday, July 27, 1918. The highest or any tender not necessarily accepted.

Dated at Victoria, B. C., this 10th day of July, 1918.

PRINGLE & WHITTAKER,
288-9 Central Bldg., Victoria, B. C.,
Solicitors for the Executor.

NOTICE.

In the Matter of the Estate of Celina Mann, Late of City of Victoria, Deceased.

NOTICE is hereby given that all persons indebted to the above Estate are requested to pay the amount of their indebtedness forthwith to the undersigned, and all persons having claims against the said Estate are requested to send particulars of their claims, duly certified, to the undersigned, on or before the 25th day of July, 1918.

Dated this 25th day of June, 1918.

YATES & JAY,
Solicitors for the Executors,
416-7 Central Building, Victoria, B. C.

NAVIGABLE WATER PROTECTION ACT.

R. S. C. CHAPTER 115.

The Great Northwestern Telegraph Company hereby gives notice that it has, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa, and in the office of the Registrar of the Land Registry District of British Columbia, at Victoria, B. C., a description of the site and the plans of the proposed laying and landing of a submarine telegraph cable in the Straits of Juan de Fuca; said cable to land at the foot of Douglas Street, Victoria, B. C.

And take notice that after the expiration of one month from the date of the first publication of this notice, the Great Northwestern Telegraph Company will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans, and for leave to lay and land said cable in the said Straits of Juan de Fuca.

Dated at Victoria, B. C., this 1st day of July, 1918.

Motor or Horse-Drawn

Equipment

Established 1887

TO BE SOLD by tender pursuant to an Order of the Supreme Court of British Columbia, dated the 28th Day of June, A.D. 1918.

The Official Liquidator of the Fernie Lumber Company, Limited, has been authorized to offer for sale by tender in bloc the property and assets of the above named Company as a going concern, including:

(1) Freehold sawmill, equipped with blower system, electric lighting plant, fire appliances, etc., office buildings, residences, bath-houses, etc., situated about one mile from Fernie, British Columbia; equipped with top and bottom circular head saws and hand re-saw, and planing mill, having a capacity of about 75,000 feet in 10 hours; the whole standing in about one hundred acres of land.

(2) Approximately 1,132 acres of freehold land, and 3,956 acres held under license from the Government of British Columbia, containing according to a cruise by J. D. Lacey & Company, over 225,000,000 feet of merchantable timber, classified as follows:

18% Douglas Fir.

5% White Fir.

10% Red Cedar.

50% Mountain Spruce.

7% Tamarac.

10% Lodge Pole Pine.

And also about:

3,500,000 Mining Poles.

40,000 Cedar Posts.

700,000 Cedar Fence Posts.

All located within five or six miles of Fernie, B. C., on the Crow's Nest Branch of the Canadian Pacific Railway.

(3) Logging Railway and Equipment, including:

(a) Approximately five miles of logging railway, including branches and sidings, starting at a point on the Elk River about 2 1/2 miles above Fernie, B. C., and running to the timber limit.

(b) One (1) Climax Geared, 35-ton Locomotive.

(c) One (1) Heister Geared, 19-ton Locomotive.

(d) 15 Russell Standard, No. 26, Log Locomotive.

(e) One (1) Aerial Skidder, manufactured by Washington Iron Works.

(f) One (1) Steam Log Loader.

(g) One (1) Snubbing Device.

(h) About 8,000 feet 1-inch Cable.

5,000 feet 1/2-inch Cable.

5,000 feet 3/4-inch Cable.

1,000 feet 1-inch Cable.

1,000 feet 1/2-inch Cable.

1,000 feet 3/4-inch Cable.

1,000 feet 1-inch Cable.

All the above quantities are merely approximate, but are believed to be correct.

(4) Miscellaneous Equipment, including tools, etc., camp buildings.

TWENTY-SIX LOSE

WES ACCIDENTALLY

Montreal Munitions Factory Collapses; Accidents at San Francisco and New York

Montreal, July 13.—The upper floor in the warehouse of Lymburner's, Ltd., a munitions firm here, collapsed this morning. Seventeen persons are missing, eight being known to be dead.

The floor which collapsed was stored with empty shells.

The identified dead are George Lymburner, nephew of the head of the firm, and Joseph Portugal.

The killed for the most part were maulers.

When the upper floor gave way its tremendous weight of shells crashed through the floors underneath and fell three stories to the cellar.

The men killed were tangled up in the debris. Bursting pipes filled the cellar with water, drowning any that might have lived through the fall.

The accident occurred just after the day shift had relieved the night shift, when there were between 400 and 500 workmen in the factory.

A large section of the flooring of the upper story suddenly gave way and plunged with its load of shells to the second floor, which broke like paper under the impact.

With added impetus and the additional weight of machinery torn from its fastenings on the second floor, the debris crashed to the first floor, where several steam fitters and tinmiths were at work.

Those who were in the building at the time declare that the collapse of the flooring occurred without the slightest warning, the first intimation coming in the form of a terrific crash, with mingled screams followed by an avalanche of debris, shells and mangled bodies.

Firemen and policemen worked feverishly to get at those buried beneath the debris, but it was seen that because of the weight of the wreckage that those entombed would never escape alive.

Five Killed.

Montreal, July 13.—Five men were killed by coming into contact with live wires at the plant of the Metals and Munitions Produce Company in Montreal East this morning.

The accident happened while the men were engaged in raising a smokestack. The derrick being used swung against a power line and broke it, an end of it dropping upon the men working beneath.

The dead: Henry David, Napoleon Prevost, Amadeo Thibault, Joseph Beaudoin and Joseph Boyette, all of Montreal.

Seven Killed.

San Francisco, July 13.—Seven workers of the Bethlehem Shipbuilding Corporation and adjacent plants were killed and forty-one of their fellow-workers and others were injured when

the Panama Canal had linked to Europe.

Australia was now the very gateway of the East and was capable of maintaining a population of 100,000,000.

Briefly, the policy of Australia was that she dare not assent to the former German islands being handed back to Germany. Her reason was not a desire for territory, but because the German lust for world power threatened everywhere.

The freedom of the sea pathways to Australia was essential to her safety. Whoever held the belt of islands north of Australia would command Australia.

This, the war had established naval bases and wireless stations and monopolized the islands trade. Undoubtedly a few more years would have witnessed German control of the Pacific.

What Calais is to Boulogne, New Zealand and the other islands were to Australia. If a young strong democracy was to exist, with a love of freedom and ample regard for civilization, became immediately responsible for their administration, a greater war than the present one might result. The quality that he mentioned did not belong to Germany as she was at present constituted, and until she became democratized she must not be permitted to cast the shadow of her despotic rule over lands whose development depended essentially upon freedom.

"Hands off the Pacific," would have to be the cry against all predatory nations.

What responsibility that this policy carries with it grave responsibilities," said the Prime Minister, "for it definitely puts aside all considerations of an inconclusive peace. It means that we must fight on to victory. Well, we in Australia are prepared to determine the fight on to victory, for only through the gates of a decisive victory can we enter into the pastures of a lasting peace."

MURDER AND ATTEMPT AT SUICIDE REPORTED TO-DAY AT CUMBERLAND

Nanaimo, July 13.—Information has just reached here of what is supposed to be a case of murder followed by attempted suicide at Cumberland this morning. A Japanese fisherman, it is said, in a fit of jealousy shot and killed his wife and then turned the weapon, a thirty-eight-calibre revolver, upon himself, inflicting a wound in his throat from which he is not expected to recover. He is at present in hospital. An inquest will be held.

FRANKFORT PAPER NOW ANXIOUS ABOUT RUSSIA

London, July 13.—In an editorial in its issue of July 6, which displayed anxiety over the developments in Russia, the Frankfurter Zeitung inferred that the success of the Czech-Slovaks had overcome the objections of the Entente to intervention and it referred to "the undertaking which England is preparing from the north against the heart of European Russia," as more serious than the attack which it assumed the Japanese will deliver from the East.

KAISER WILHELM STILL CHATTERING

Amsterdam, July 13.—How Kaiser Wilhelm pictures the future of Germany is recorded by his favorite war correspondent, the faithful Karl Rosner, of The Berlin Lokal Anzeiger.

One evening, after a busy day, in surveying operations from a chain of observation posts, the Kaiser, chatting with his entourage, spoke with glowing enthusiasm, says Rosner, of the time when the forces let loose on destruction would again return to useful pursuits.

He spoke of the great advances made in science, and made the forecast that all of Germany's needs in nitrates would be covered by extracting nitrates from the air.

The Kaiser then described the "marvellous possibilities" of the new gas motors and how present waste waters from metal works would serve to fertilize the fields so that deserts would blossom like the rose and arid regions would become self-supporting as regards food.

"With daring flights of fancy," continues Rosner, "the Kaiser predicted the harnessing of the rays of the sun and the recovery of the ocean's innermost treasures."

This would all come to pass, the Kaiser assured his hearers, once Germany secured the "strong peace" for which she was working.

With this would all come to pass, the Kaiser assured his hearers, once Germany secured the "strong peace" for which she was working.

GRUENING QUILTS AS MANAGING EDITOR OF NEW YORK TRIBUNE

New York, July 13.—Newspapers here to-day published an announcement that Dr. Ernest Henry Gruening had ceased his connection as managing editor of The New York Tribune.

Ogden Mills Reid, publisher of The Tribune, in confirming reports of Dr. Gruening's retirement, said that "Dr. Gruening's speaking of the affair and the fact that he lived in the same apartment house as Dr. Edward Rumely, formerly of The Evening Mail, now under charges of perjury in connection with the ownership of The Mail, said that the war had nothing to do with his leaving The Tribune, and so far as Dr. Rumely was concerned, declared that he "did not know the man and had never spoken to him."

RAILROADS ROBBED.

Washington, July 13.—The loss of more than half a million dollars in ransom, railroad cars, and other property, has caused the railroad administration to take steps for its prevention. Wholesale junk dealers have been notified that such material in their possession will be seized.

CHICAGO GRAINS HEAVILY SOLD TO-DAY

(By Burdick Bros. & Brett, Ltd.)

Chicago, July 13.—Over-night developments, of which the vetoing of the wheat bill by President Wilson was the most important, inspired further profit taking on the part of holders of both corn and oats. Weather was decidedly more favorable for wheat than reported in the West and Northwest and especially in Canada. Cash markets at the close were relatively heavy.

WIN WAR LEAGUE TO URGE CONSTRUCTION

Of Railway to Nitinat; C. T. Cross Reviews Trip South

At the close of the gathering held in the Belmont House under the auspices of the Victoria Branch of the Win-the-War League last night President C. T. Cross announced that a special meeting of the League would be convened for Monday evening next. The particular business for discussion will be the advisability of action directed towards the securing of early construction of that stretch of railway intended

to tap the spruce areas of the Nitinat section. It is hoped by the officers of the League that a goodly attendance will be present since the immediate construction of the seventy miles of rail, in connection with which Premier Oliver has so energetically labored, is regarded by the members of the organization as of prime importance not only to this Island industrially, but as a war measure of extreme urgency. 15,000,000 if Necessary.

Prior to the address of Col. (the Rev.) G. H. Andrews, referred to elsewhere in this issue, President Cross, who officiated as Chairman, gave a review of his recent trip through the middle States. At an informal banquet at Kansas City, given in honor of the real estate men delegates en route to the St. Louis convention, Mr. Cross was called upon to give some idea of the gathering as to what Canada had done towards the war.

With a task of that character before him he naturally "libbed," and proceeded to confine his remarks to the response of Victoria and Vancouver Island. From figures obtained from local headquarters prior to his departure south Mr. Cross was able to inform his

American cousins that when the States had done as well as this Island in manpower, there would be fifteen million Samurais in the field. "We'll put 'em there if needs be," promptly rang out from various points in the banquet hall. No Loopholes.

Mr. Cross proceeded to point out last night that that was the present spirit of the United States. The Americans had made up their minds that the job on hand was a duty to humanity and no "let up" could be permitted until the pernicious foe of civilization had been brought to book. From his observations and from the spirit which permeated the evening, it is estimated that Mr. Cross was of the opinion that the worst people the Hun would have to deal with at the peace conference would be the representatives of Uncle Sam. There would be no loopholes through which militarism would be able to emerge again.

AUTOMOBILE TRADE SHOWS IMPROVEMENT

Many Ford Cars Sold by Local Agents Who Also Secure Fordson Tractor Agency

The National Motor Company, Limited, who are now doing business at their new quarters, 831 Yates Street, are now agents for the famous Fordson tractor, which is manufactured by Henry Ford & Sons, and which heretofore could only be procured through the Government. Arrangements have been made whereby the manufacturers have placed the selling of the tractors in the hands of the various dealers in Ford automobiles.

Two of the tractors are now working on the R. P. Rithet ranch at Royal Oak and another is operating on the Kay ranch at Turgoose. Moving pictures showing the wide scope of the operations which may be carried on with greater economy and advantage through the use of these tractors were shown in the Dominion Theatre recently and created great interest.

The National Motor Company, Ltd., are fully equipped with the most modern facilities at their new quarters for the handling of Ford cars, and they carry a full line of accessories, oil, greases, etc. An excellently laid out machine shop with a staff of competent mechanics is provided solely for the purposes of looking after repairs to Ford cars. This gives a good deal of satisfaction to Ford owners, as they can always rely on having their work attended to with the least possible delay and with the utmost degree of efficiency.

One of the features of this concern is the installation of one of the latest improved gas pumps which pumps up to five gallons at one time. The garage is open for the sale of gasoline until 10 p. m. every day. J. W. Morris is the sole director of the company, and Mr. R. T. Ward is secretary. The firm has the exclusive agency in Victoria for Ford cars. Mr. Ward says that since they moved down to Yates Street from their old Rockland Avenue premises the business in every department has doubled.

VICTORIA RESIDENT DIES IN LOS ANGELES

A. Howard Potts Was on Way Home From Arizona

After spending the past three months in Arizona in the interest of his health, A. Howard Potts, a well-known resident of this city, died at Los Angeles yesterday while on his way home to Victoria.

Nearly fifty years of age, the late Mr. Potts had spent over thirty years in this country. He came out from England in 1887, and for a time settled in Comox and then in Nanaimo before making his home in this city. In the early nineties he was associated in business with J. H. Hawthornthwaite, the present member for the Newcastle constituency in the Provincial Legislature. Later he established a real estate agency and insurance business in Victoria, from which he retired in 1913. In the same year, failing health necessitated his taking a trip to England in the hope that the change would be productive of beneficial results, but he finally decided to return to Victoria and later has been at Phoenix, Arizona.

He is survived by his widow, two children and two brothers, Beevor C. H. Potts, of Nanaimo, and Edward Potts, who was with him at the time of his death. Funeral arrangements will be announced later.

FINE RED CROSS FILMS

Leading Artists to Contribute Musical Numbers at Pantages on Monday and Tuesday.

The moving pictures of salmon fishing by trap, fish-weels, purse and gill nets, also those of anglers casting and catching steelheads and trout with a fly, and the films of wild bird life to be shown at Pantages Theatre on Monday and Tuesday nights for the benefit of the Red Cross, have been loaned by the Oregon Fish and Game Commission. No other films of fish and bird life have been taken of this most interesting character.

Mrs. R. H. Potts has arranged very attractive musical programmes for each evening. At Monday's performance songs will be contributed by Mrs. D. B. McConnan, Miss Mamie Fraser, Mrs. Johnson, who has just returned from New York with a repertoire of the latest song-hits, and Sgt. Major Merryweather, while Miss Lillian Holden and Connel Lee will give a clever little sketch.

The Tuesday programme will include selections by the 5th Regiment Band, and vocalists Mrs. Macdonald, Fahy, Mrs. Robert Baird and Gideon Hicks. Master Geoffrey Waddington will give violin selections.

SOLDIERS' CONTRIBUTIONS.

One of the largest and most regular contributors to the support of St. Paul's Presbyterian Military and Naval Church, Victoria West, is a soldier on active service in France, whose income is the ordinary private's allowance. This week another member of the church "somewhere in France" sends his contribution and a message full of hope and inspiration.

Approved by Canada Food Board

ADDRESS
E. W. Gillett Co. Ltd.
TORONTO, CANADA

INVITE TENDERS FOR SUPPLYING JULIENNE

Soup for Allied Forces Wanted; Opportunity for Vegetable Growers

Chairman Kingham, of the Provincial Committee of the Canada Food Board, announces that word has been received that quotations on the following commodities are required by the Allied buyers, Shaughnessy Building, Montreal: Five hundred tons julienne, tin boxes and cases, composed of ten per cent. cabbage, thirty-five per cent. carrots, forty per cent. potatoes, five per cent. turnips, balance celery, onions, leeks and parsnips. Delivery last six months 1918. Price f.a.s. Montreal.

Also quotations are asked for immediate shipment and estimate of available supply of all kinds of jam packed for export and evaporated apples. All quotations are to be f.a.s. Montreal, and samples to be sent to Allied buyers along with quotations.

All individuals and corporations engaged in this line of business are urged to take every possible advantage of this offer and forward quotations and samples to the Allied buyers. Further particulars are expected from the Board shortly and full information with regard to these will be duly announced on receipt.

AGAIN LORD'S DAY ACT

Police Will Take Names of Sabbath Breakers To-morrow as Usual.

Armed with voluminous note books the police will sally forth to-morrow bent upon according the public that "intelligent enforcement of the Lord's Day Act to which they are entitled," taking the names of all Sabbath breakers and forwarding them to the Attorney-General. Accompanying the list as usual there will be a request that the Chief of Police may proceed to prosecute Sunday violators in accordance with the Act and the wishes of the mayor, but not of the other two police commissioners. When the names are taken to-morrow a record for long continued but fruitless recording of such persons as work on Sunday will be established. The last spell of name-taking lasted only two weeks, but the present spasm has continued for twice that time.

O'LEARY TESTIFIES IN NEW YORK COURT

New York, July 12.—Jeremiah A. O'Leary, a Sinn Féin leader, indicted for conspiracy to commit treason, admitted in the federal court here yesterday that in September, 1914, he tried to get Sir Roger Casement to head an Irish press bureau here. Casement later was executed by the British Government for treason. O'Leary testified at the re-trial of his brother, John O'Leary, accused of aiding him to escape on the eve of his trial for publication of alleged seditious articles. He denied he had loaned the sinking of the Lusitania or the invasion of Belgium. He said he offered to address recruiting missions last year, but was prevented by his physician.

Wincarnis brings New Health and New Strength to All Who Are Weak, Anemic, Nervous, Run-down

WHEN your constitution is undermined by ill-health—when your home duties become burdensome—when your pleasures pall—when you are Weak, Anemic, Nervous, or Run-down—then it is that Wincarnis gives you power in promoting new health and vitality.

The New Wincarnis

A combination of Extract of Beef, Extract of Malt, Iron, and Manganese, Calcium Phosphates and Glycophosphates of Calcium Potassium and Sodium. A Tonic, Restorative, Blood-builder, and Nerve-food. Prescribed by the Medical profession for Anemia, Debility, Nervousness, Brain Fatigue, Nervousness, Lowered Vitality, La Grippe, Maternity, weakness and Convalescence from any illness.

Because Wincarnis possesses a fourfold power for good, it is a Tonic, a Restorative, a Blood-maker and a Nerve-builder—all combined in one health-giving preparation. That is why Wincarnis makes you feel so well so quickly. And it is also the reason why so many Doctors have recommended Wincarnis.

Wincarnis not only contains the very elements of which our bodies are composed and without which it would fade and die—but it has these wonderful properties in their most assimilable form.

Every ingredient of Wincarnis is endorsed and recommended in the daily practice of the members of the medical profession the world over.

Preparations: Coleman & Co., Ltd., Wincarnis Works, New York; Wincarnis, 47 Portland St., Toronto; Frank S. Ball, Resident Director.

SUMMER SCHOOL CLOSED YESTERDAY

Dean of Columbia Reviews Work Accomplished at Session

The Victoria summer school which has been in session at St. George's School, Rockland Avenue, since Monday, closed yesterday after a very successful week.

In reviewing the work of the school, the Dean of Columbia this morning said: "The summer school exceeded in numbers and tone our expectations. The teachers were of a very high order and sustained their quality throughout. Earnest people are hungry for sacred knowledge, and not merely knowledge of an antiquarian character, but knowledge of the past that explains the present, and modern knowledge that enables men to restate the conclusions of the past. It was a modern school and the new light was faced and tested and welcomed. The Anglican church claims that we have backwards and forwards, and that dual attitude was exemplified throughout."

Dr. Gowen, Professor of Oriental languages in Washington State University, showed his power in making the problems of "Job" and "Ecclesiastes" living things. Rev. R. H. Hicks dealt in a wise and lucid manner with the training of the young and Professor Cosgrave, of Toronto, supplied a mine of information with regard to missionary work in Canada and beyond it. These three men were the suns—the rest of us were mere satellites. St. George's School kindly lent by Mrs. Stuttle supplied excellent quarters for the scholars, and the Rev. H. T. Archibald made an efficient secretary. The summer school is now an institution and it is hoped it will go from strength to strength."

WILL SING NEW SONG.

J. Douglas Macey has added another to the list of compositions with which he has charmed music lovers recently. His latest composition takes the form of a particularly beautiful musical setting to the words of "Walt, Strive and Pray," by Adelaide A. Proctor. It will be rendered in public for the first time at the evening service at the Metropolitan Methodist Church to-morrow by Mrs. Gideon Hicks, to whose full rich voice the music is eminently suited. J. O. Dunford, to be the soloist at the morning service. Edward Parsons will play the organ accompaniments for both soloists.

UKRAINIAN INSTITUTE FORMED IN CANADA

Ottawa, July 12.—Incorporation has been granted to the Canadian-Ukrainian Institute Prosvita, with head offices at Winnipeg. This institution has for its purpose the improvement of the mental, social and economic conditions of Canadian people who are of Ukrainian origin.

DEVELOPMENT PLANS IN OREGON STATE

Portland, Ore., July 12.—Plans for utilizing Oregon's idle lands in the reconstruction period after the war and the housing problem, especially as affecting Portland's present needs, were dealt with at the opening day's session of the tenth Annual Commonwealth Conference here yesterday.

That the Government should expend \$3,000,000,000 for reclamation projects in this country was the assertion of John H. Lewis, state engineer, who spoke in the opportunities that the reconstruction period would offer labor and capital.

The need of a better housing code and a well-worked out city plan for Portland was brought out in a talk by H. M. Eaters, secretary of the Portland Housing Association, who presented the report of a committee appointed by the Consumers' League.

MARKET Supt. SMITH LEAVES OFFICE TO-DAY

A. G. Robertson Asked to Undertake Duties; Appointment to Be Made Monday

The city lost a good official to-day, in the transfer to the Government service of John Smith, Market Superintendent. Mr. Smith's duties have brought him in touch with a great many people who use the market, as well as the stallholders with whom he is in direct relation. It may safely be said that the success of the market recently has in no small measure been due to the activity and courtesy of Mr. Smith.

He came into the market at a time when it was uncertain whether the effort was to be a permanent institution or not and has built it up steadily. The fees earned, and the gross turnover show a substantial advance for the first half of the current year on the corresponding period of last year. To the city the market is now paying for the investment sunk in the property, as well as being of material advantage in stimulating production and providing fresh produce for citizens.

Labor Bureau.
Mr. Smith has recently been placed in charge of the Civic Labor Bureau, which is operated in the same building. The intention of the Council is to close this up, expecting that the Federal and Provincial Governments will take over the work of labor bureaus. Owing to the useful assistance given to women workers meanwhile through the bureau.

How Can Any Woman

expect to be bright and fresh after a day's struggle with a steamy wash boiler and hard scrubbing board?
Let us do the work. You will never know how much you can SAVE YOU until you've tried our service.

VICTORIA STEAM LAUNDRY CO., LTD.
PHONE 172.

no action has hitherto been taken to close the office. In the reorganization of the work the plans contemplate closing this branch up altogether.

The Successor.
The Council showed great anxiety on Monday to get the Fair Weights and Measures Officer, A. G. Robertson, to take the vacant position. The matter was left over in order to negotiate with him, but while he is apparently no more anxious than formerly to accept, the aldermen yesterday discussed the matter again and unanimously considered him to be the best man in the city service and perhaps in the city for the post of Market Superintendent. Mr. Robertson has been a great success in his present post, has stimulated the honesty of vendors, and secured to customers a fair deal in fuel and food orders. He has the advantage also of having been a grocer and therefore in practical touch with the retail business. The work with which he has been connected has been reduced to the extent that he has now some spare time which is given to the Treasurer's Department, and the aldermen think that he could spare two days a week at the market, and yet have time for his regular inspection duty.

While no definite decision was reached yesterday, it was decided that Mr. Robertson should go over to the market to-day, and a final appointment should be made on Monday.

Where Books May Be Secured.
Notice is given at the local office of the Canada Food Board that copies of the recipe books issued by the Board may be secured at the following local stores: Hibben & Co., Victoria Book and Stationery Co., Kirkham's, Ltd., Spencer's, Ltd., Acton Bros., Hamsterley Farm, Western Grocery Co., and Angus Campbell & Co.

Feed Your Nerves

What tired nerves need is nourishment. Your blood has failed to supply this. To get the system right again you must supply nutrition in condensed and easily assimilated form, as it is found in Dr. Chase's Nerve Food.

The blood is quickly enriched, the vigor of the nerves is restored, digestion is improved, and soon you feel through the whole body the energy and vigor of health.

ACCOUNTING SHOULD DISCLOSE THE FACTS

Subject of Municipal Balance Sheets Explained by Montreal Accountant

A uniform system of municipal accounting, to show the ratepayers at a glance how the finances stand, would be greatly appreciated by ratepayers' associations, which regard criticism as the spark of life.

A premature adjournment of the recent conference of the Union of Canadian municipalities in this city prevented the report prepared by H. J. Ross, of Montreal, on this subject reaching the floor for debate. Mr. Ross, who as it has already been explained, is an authority on accounting, dwelt in his report on the progress made in Canada towards securing uniformity.

E. T. Sampson, Secretary-Treasurer of the municipality of Outremont, attending Montreal, had brought to the conference a set of model balance sheets, which were illuminating. Mr. Sampson, who is a member of the British Society of Municipal Treasurers, argued that municipal accounts should present scientific principles rather than the overloading of too detailed, classified information. The object, he stated, was to avoid a mere collection of figures intelligible only to the bookkeepers who prepared them. Steps should be taken to prevent the practice of municipalities withholding payments to the following year to avoid increasing taxation, and to secure closer control of all payments for stocks of material purchased. He explained the basis of a satisfactory system grounded on the exhibits filed, and said that capital accounts or expenditures out of loans should clearly present the historical record to avoid intentional obscuration. He made suggestions with regard to public utility corporations, and methods to secure an accurate knowledge of their earnings. He concluded by stating that there was no necessity to be content with makeshift methods, and—counselled should insist on maximum efficiency of their accounting officials.

CAMERON COMPANY TO HAVE RAILWAY SIDING

City Will Not Oppose Proposed Scheme; Cable Connection Settled

For the first time since the Selkirk Water reclamation scheme was before the Council three years ago, reference was made to it yesterday afternoon in the Civic Streets Committee. At that time it was agreed between the city, the Canadian Northern Railway and the Cameron Lumber Company how the development of the northern half of the waterway should be planned with a view to railway service to industries and reclamation of shallow waters. Now the railway company has filed an application on behalf of the lumber company asking for a deviation from the plan in order to build a trestle carrying a spur into the mill yards.

The aldermen carefully considered the subject, recognizing that it was a deviation from the plan. Anxious, however, to help the company, it was agreed not to oppose the application.

Telegraph Cable.
Subject to a report from the City Electrician on the rental of connections to the city poles on lower Douglas Street, alongside Beacon Hill park, the aldermen approved the amended plans for the landing of the submarine cable from Port Angeles for the Great Northwest Telegraph Company. Reports from the Assistant Engineer and Electrician and from the solicitor were read, recommending approval under certain conditions, and use of city poles to avoid placing another line of poles in the park. The solicitor advised that if the street was actually on park property, there was little doubt that the company's franchise enabled them to traverse it.

The WEATHER

Daily Bulletin Furnished by the Victoria Meteorological Department.

War Charities.—In the list of licensed associations in The Canada Gazette of bodies legalised under the War Charities Act, appears the name of the Agnes Deane Cameron Chapter of the I. O. D. E. in this city.

COL. G. H. ANDREWS TALKS OF SALONICA

Throws Light on Importance of Greek Port to the Allied Cause

WOULD MEAN VIRTUAL DISASTER IF CAPTURED

Because there had always been more or less of a hazy idea prevalent as to the real object of Allied occupation of Salonica, added to which was a sort of grievance nursed by the Tommies stationed there, for the reason that war's limelight failed to catch them in its rays in anything like the same brilliance that it did on the Western front, Col. (the Rev.) G. A. Andrews occupied himself with a very realistic description of this remote but all important war theatre in his address at the Belmont House last night. Something of what the allied soldiery has had to endure in this south-eastern section was best understood, said the Padre, when one realized that almost invariably a wounded man would contract one of the common diseases peculiar to the country, to say nothing of enduring the natural handicaps and entire lack of western atmosphere in every sense of the term.

Will Not Be Taken.
It had often been asked, he recounted, why it had been necessary to retain Salonica and why one always associated this particular front with passivity. The Padre explained the importance of the Greek port and how vital a spot it had become to the Allied cause, amounting almost to disaster were it to fall into the hands of the enemy. Thanks to Constantine the Teutons had been able to obtain possession of the higher ranges of hills north of the city, a fact in itself, by reason of the Bulgarians, to its own which-militated against successful aggression on the part of the Allies. But in spite of vantage points held by the enemy sufficient preparation had been made to ward off all attacks in the inner zones. "Salonica has not been taken and Salonica will not be taken," challenged the Padre with a knowledge whereof he spoke.

Distance Lends Enchantment.
As he proceeded to paint a mental picture of the city and its environs he felt bound to admit that its beauties had a great deal more appeal when viewed from afar. Since it resembled to-day a similarity of condition to that in which St. Paul found it on the occasion of the apostle's only visit, it was not difficult for the Colonel's audience to appreciate his references to medieval atmosphere, to its own brand of Oriental aroma, to its town planning system and to its general middle age conveniences. Its motley crowd was still leavened with the Jew, who reminded the speaker of those gentlemen who "kidd their business on the Rialto in Shakespeare's time—even to the flowing robe. One Tommy had asked the Padre if St. Paul had been out one visit to Salonica, and upon the Colonel's assurance that history had recorded such, the Tommy looked at him and smiled: "No wonder," said he, "the Padre was quite unforgettable." The argument was quite unforgettable, recalled the Padre, and he agreed that no finer sight of Salonica presented itself than that obtained from the stern of a ship when leaving the great harbor.

Good Clean Fighter.
While the Bulgars is known to be an enemy of Britain he is apt to be tarred with the Teuton brush. The Padre, however, threw a little light on Foxey Ferdinand's soldiers "last night." He contends that the Bulgarians are fighters because it has just sufficient of a Teuton leaving to stiffen it, and so long as it is officered by Prussians it will remain in the field as an enemy. The Padre said that the Bulgars is a good clean fighter and a straight shot. "continued the Padre as he went on to show the apparent state of mind in which Bulgarian soldiery finds itself and proved by the fact that it was no uncommon morning sight to find a German officer murdered by his own troops and suspended on the edge of the Allied wire.

The British Name.
It was always a source of delight to the Padre to feast on the contrast in that cosmopolitan crowd furnished by the trim appearance of the British and Japanese sailors, and again by the wonderful dignity and kindly bearing of "our own Canadian nursing sisters." With the penchant of the British soldier when campaigning to make him self thoroughly at home Colonel Andrews went on to visualize the Piccadilly Circus of Salonica. There was always one figure which compelled attention in the centre of the "circus." There stood a British Tommy who had been a London policeman, and as he waited his wand of authority in the real Piccadilly Circus at home so could he do it with almost the same ease amid a coming and going of men and things vastly different to the taxi cab and the landaulette, readily subjected to halt or action by the uplifted right hand in the old days.

"Here, however, was a symbol not lost upon the mind of the Padre. In the British Tommy's belt, loaded in all chambers, snuggled a revolver. It was never used. In his hand he held a small stick for the better guidance of direction. The British soldier, then, with a stick in hand was figuratively directing the nation's work, a work he believed, entrusted to her by the Almighty. The force was there, but it was not necessary to use it. And the Padre completed his meaning of the symbol by quoting Mark Twain, who had said of India that a vast continent was governed by a comparatively few men clad in "the might of the British name."

Not Loved—Respected.
"Reluctantly, no, we are not loved," would be the Padre's answer to the query as to whether we were looked upon with a kindly eye by the peoples of this southeastern section of Europe. "But we are respected." While shopping in Salonica resembled the proceeding of Petticoat Lane, the desire to "do" the purchaser to the limit of the seller's ability had its recompense in the fact that a sale often would be consummated by the Greek merchant insisting that the Britisher take the goods and pay when he had the money. No concern would be occasioned the most astute merchant by relaying to this extent and the suggestion that the purchaser might never visit the store again would merely bring forth a shrug of content accompanied by a figurative "that's alright" and an actual "You British." Even in the

barber's shop was that same deference noticeable. "British, clean, towel," would be the invariable sotto voce observation from the man in charge.

A Gentleman Always.
The Padre had much to tell of the little lights associated with the multi-colored life of Salonica and his description of the conflagration which licked up the major portion of the city in August of last year was another tribute to the British soldier and the Jack Tar. There were many instances of the reliance placed upon the British uniform during that terrible time. Tommy and Jack lived up to the famous tribute of Lord Roberts "brave in battle and a gentleman always" for it came before the Padre's notice that the women and girls who were rescued from the burning buildings and taken to the ships in harbor by means of lorries refused to make the journey unless under the protection of the British uniform. "Me no go unless British soldier go," was the invariable cry from the gentler unfortunates. When the fire had subsided some Greek friends of the Padre had said to him that the magnificent behavior of Tommy and Jack lived up to the raise the prestige of the British name than the politicians had done to lower it.

In France.

Then came the day last year when the hospital was removed to England and the Padre went on to deal briefly with the work of No. 3 Canadian Stationary Hospital in France to which he became attached in December of last year. It will be remembered that somewhat detailed reference was made to this part of the Padre's experiences in these columns on Saturday last. In pursuing a similar theme he also told of his chat with King George last Good Friday to whom he praised the marvellous work of the nursing sisters of No. 3. His Majesty felt sure they were all heroines and would like to give them all the Royal Red Cross. "And they may get it," said the Padre in conclusion.

Major Edwards of the 2nd C. M. R.

Silk Dresses
Reg. to \$39.50
For \$22.50

Gordons
729 Yates St. Phone 5510

Trimmed Hats
Regular to \$10
For \$2.98

dilly Circus of Salonica. There was always one figure which compelled attention in the centre of the "circus." There stood a British Tommy who had been a London policeman, and as he waited his wand of authority in the real Piccadilly Circus at home so could he do it with almost the same ease amid a coming and going of men and things vastly different to the taxi cab and the landaulette, readily subjected to halt or action by the uplifted right hand in the old days.

"Here, however, was a symbol not lost upon the mind of the Padre. In the British Tommy's belt, loaded in all chambers, snuggled a revolver. It was never used. In his hand he held a small stick for the better guidance of direction. The British soldier, then, with a stick in hand was figuratively directing the nation's work, a work he believed, entrusted to her by the Almighty. The force was there, but it was not necessary to use it. And the Padre completed his meaning of the symbol by quoting Mark Twain, who had said of India that a vast continent was governed by a comparatively few men clad in "the might of the British name."

Not Loved—Respected.
"Reluctantly, no, we are not loved," would be the Padre's answer to the query as to whether we were looked upon with a kindly eye by the peoples of this southeastern section of Europe. "But we are respected." While shopping in Salonica resembled the proceeding of Petticoat Lane, the desire to "do" the purchaser to the limit of the seller's ability had its recompense in the fact that a sale often would be consummated by the Greek merchant insisting that the Britisher take the goods and pay when he had the money. No concern would be occasioned the most astute merchant by relaying to this extent and the suggestion that the purchaser might never visit the store again would merely bring forth a shrug of content accompanied by a figurative "that's alright" and an actual "You British." Even in the

barber's shop was that same deference noticeable. "British, clean, towel," would be the invariable sotto voce observation from the man in charge.

A Gentleman Always.
The Padre had much to tell of the little lights associated with the multi-colored life of Salonica and his description of the conflagration which licked up the major portion of the city in August of last year was another tribute to the British soldier and the Jack Tar. There were many instances of the reliance placed upon the British uniform during that terrible time. Tommy and Jack lived up to the famous tribute of Lord Roberts "brave in battle and a gentleman always" for it came before the Padre's notice that the women and girls who were rescued from the burning buildings and taken to the ships in harbor by means of lorries refused to make the journey unless under the protection of the British uniform. "Me no go unless British soldier go," was the invariable cry from the gentler unfortunates. When the fire had subsided some Greek friends of the Padre had said to him that the magnificent behavior of Tommy and Jack lived up to the raise the prestige of the British name than the politicians had done to lower it.

In France.
Then came the day last year when the hospital was removed to England and the Padre went on to deal briefly with the work of No. 3 Canadian Stationary Hospital in France to which he became attached in December of last year. It will be remembered that somewhat detailed reference was made to this part of the Padre's experiences in these columns on Saturday last. In pursuing a similar theme he also told of his chat with King George last Good Friday to whom he praised the marvellous work of the nursing sisters of No. 3. His Majesty felt sure they were all heroines and would like to give them all the Royal Red Cross. "And they may get it," said the Padre in conclusion.
Major Edwards of the 2nd C. M. R.

moved, and Captain Martin seconded, a hearty vote of thanks to the Padre and its unanimous passage was accompanied by "For He's a Jolly Good Fellow."

IS ROUGH RIDER
Major G. D. Hamilton Would Raise Canadian Corps for S. Africa.

Major G. D. Hamilton, a British army veteran of twenty-one years' experience and brother of General Sir Ian Hamilton, who was in command of the British army at Gallipoli, is at present in Western Canada, and he has sent an offer to the Imperial authorities to organize a unit whereby 1,000 rough riders from Canada's western plains should be raised for service in South Africa.

The Army and Navy Branches throughout Western Canada, it is expected by the Major, would assist in the matter and he figures that he will raise the full 1,000 men from among veterans of the South African war.

DON'T HIDE THEM WITH A VEIL; REMOVE THEM WITH OIL—DOUBLE STRENGTH.

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.
Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement. Some of the lighter freckles vanishing entirely.
Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.
